Numru tal-kriterju għall-għoti: 70

Kriterju:

Tip: Kwalità

Isem: K1 Quality

Deskrizzjoni: K1: The evaluation of quality is based on an assessment of the responses to deliveries that the contracting authority wants (ought-requirements), cf. the requirement specifications point 3.3. The sub-criteria in the award criteria quality: 1.charging point for more parking places than the minimum requirement (point 3.3 letter a) 2. service offer for the users of the 24 hour resting place (point 3.3 letter d). 3rd area suitable for expansion (point 3.3 letter b) 4.previous opening of the 24 hour resting place (point 3.3 letter c) Weight/deduction/priority : [30] % Documentation requirement for point 1: Tenderers shall describe what extent is offered (the number of charging points and power). The design, construction for the protection and placement of the charging station/charging points shall be stated in the draft that is delivered. Tenderers shall also describe their planned progress with activities, sequences and dependencies toward the completion deadline. The tenderer shall submit documentation showing dialogue with a network company, and the documentation shall substantiate that there is sufficient capacity in the local network. A gender neutral preferred or contact

information at the network company shall be provided so that the contracting authority can make contact if needed. Documentation requirement for point 2: Each service offer shall be described, including availability, distances and opening hours. Documentation requirement for point 3: The area suitable for expansion shall be shown on the metered drawing. A description shall be given of how many placement places can be expanded with, and how requirements in 3.2 a can be fulfilled. Documentation requirement for point 4: Tenderers shall give an account of the progress plan and the planned opening date.

Numru tal-kriterju għall-għoti: 30

Kriterju:

Tip: Kwalità

Isem: Climate and environment

Deskrizzjoni: There is no requirement for 30% weighting of climate and environmental considerations. The contracting authority can replace climate and environmental considerations in the award criteria with climate and environmental requirements in the requirement specification, if it is clear that this gives better climate and environmental effect. Several different requirements are made in the requirement specification, including: - All areas that must be developed shall have an asphalt-EDP that is lower than 90 kg/tonne in accordance with NS-EN 15804+A2:2019. - Charging stations shall be established for electric lorries. - Cleaning shall be carried out with environmentally friendly products. It has been considered that the effect of setting these requirements (especially the first two hyphenated points) gives a better effect than a possible achievement, if they were used as the award criteria. The requirements and effectiveness of the above requirements are, in our opinion, sufficient to use the exception in PPR § 7-9 (4).
