2.1. Proċedura

Titlu: 26168 (2026-122) Transport services - Coach services, framework agreement.

Deskrizzjoni: The competition is for a framework agreement for transport services: Bus transport to Eidsvoll, Gjerdrum, Nannestad, Hurdal, Nes and Ullensaker municipalities. Most of the service will be transport of pupils to and from all pupils, as well as transport of pupils to and from school camps. In addition the service will include general transport of groups to different purposes. The procurement's value is estimated to: NOK 8,000,000 excluding VAT per annum. The maximum value for the entire contract period, including any options and expected price rise: NOK 40,000,000 excluding VAT. The need is uncertain. The volume can vary both up and down and the contract period will depend on, among other things, the contracting authority's needs, activities, budgetary situations and other framework factors. See the procurement documents for further information. The contracting authority reserves the right to cancel the competition, i.a. in connection with budgetary coverage and political approval.

APPRENTICE: The contracting authority has assessed the procurement against the Public Procurement Act § 5h and concluded that there is no requirement for apprentices in this procurement as it is considered disproportionate, cf. §5h (4) as it is seen as disproportionately for the content, extent of the work and the following reasons: * There is a need for specialised competence that an apprentice cannot be expected to hold. We point out that the driver must be over 21 years old and have driver's rights in class D1, D1E, D or DE for passenger transport. * The works are normally carried out by only one person. We point out that there is normally only one driver on buses, and with the use of an apprentice it is presumed that the tenderer has an additional driver to follow up the apprentice. * The work assignments are not considered suitable for apprentices due to the nature of the work and requirements for health, safety and the environment. We point out that passenger transport will mainly be carried out by children, which requires extra focus on safeguarding passenger safety.
