2.1. Proċedura

Titlu: Copenhagen - New Metroline, M5 Civil Works South

Deskrizzjoni: This tender presents a substantial opportunity for prospective contractors to bid for the M5 Civil Works South (CWS) package, an important component of the Copenhagen metro system's expansion. This project is of significant strategic importance, as the M5 line is a fully automated driverless metro system that will not only enhance passenger service on existing metro corridors but also extend connectivity to emerging urban development areas, including Kløverparken, Refshaleøen, and Lynetteholm in the East Harbour. The M5 is designed to operate as an independent system, ensuring that its construction and subsequent operation do not disrupt the existing M1-M4 metro lines. MAIN COMPONENTS OF THE M5 CIVIL WORK The M5 south consists of approx 6.5 km twin bored tunnels, 5 underground stations(incl. 3 transfer stations),2 underground crossovers,5 cross passages,1 ramp, approx 2.0 km viaduct,1 elevated station, 1 viaduct cross-over,1 elevated bifurcation, short embankment sections. For further details on scope ref. is made to M5-2.1-CMBS-SW and M5-2.2-CWS-SW PHASES: The current tender, Phase 1, encompasses the southern section of the line, from north-west of København H to north of v/Prags Boulevard, with an anticipated operational commencement in 2036. The broader vision includes phase 2 north of v/Prags Boulevard to Lynetteholm opening in 2045 and a potential future extension to form a ring line, signifying a long-term commitment to urban mobility. Phase 2 is not included in this tender. CONTRACT SPLIT OF M5: The M5 project as a whole consists of several contracts: • M5 Civil Works South (this contract) • M5 Transportation System South contract (tendered out as a separate contract in parallel with M5 Civil Works South) • Operation and Maintenance South contract (will be tendered out at a later stage) • Enabling Works contracts, e.g. relocation of utilities, relocation works at Kh etc. (enabling works will be tendered out in separate contracts) • Station and Shaft areas (will be tendered out at a later stage) • Canopy contracts (will be tendered out at a later stage). CONTRACT The contract is structured as a design & build contract under ABT18 terms, placing comprehensive responsibility for both design and execution upon the Contractor. This two-phase approach—design followed by execution—is a standard framework for complex infrastructure projects. An extensive market dialogue has been carried out before issuing the tender. The purpose of the market dialogue was to learn

from the market what would constitute an attractive contract. Metroselskabet I/S is grateful for all the potential tenderers who took their time to participate in the dialogue and those provided input. Elementi prinċipali tal-proċedura: Metroselskabet IS/ has chosen to use the negotiated procedure for this Contract. The conduct and approach of the negotiations are described below. The negotiation phase is divided into three (3) negotiation rounds. LAUNCH OF NEGOTIATION The negotiation phase will be initiated by an individual launch meeting with each Tenderer. The launch meeting is not a negotiation meeting and serves a solely informational purpose. The purpose of the launch meeting is to (i) confirm receipt of and access to the tender documents, (ii) present the Metroselskabet's intended organisation of the negotiation phase, The framework for the meetings will allow for a number of breaks throughout the day to provide opportunity for the parties to meet internally and discuss in confidence and breaking the day into a series of sessions. (iii) provide an overview of the key elements of the ITT (iv) Present key issues for the Tenderer to pay attention to during the negotiations, and (v) address any initial queries regarding the negotiation phase.

NEGOTIATION ROUND 1 - COMMERCIAL AND TECHNICAL REQUIREMENTW Negotiation round 1 will be conducted on the basis of the initial tender submitted by each Tenderer in accordance with ITT section 7.1. The purpose of Negotiation round 1 is to develop the Tenderer's understanding of the Project, including its risks and technical requirements. The submissions in Negotiation round 1 are intended to facilitate discussion and clarification of the contract requirements and shall not form the basis for award of the Contract. Negotiation meetings during Negotiation round 1 will be based on written submissions from the Tenderers. The requirements for the content of the initial tender being submitted in Negotiation round 1 are described in ITT section 7.1. The Tenderer is encouraged to raise all concerns regarding the commercial and technical aspects of the tender documents during Negotiation round 1, as the Metroselskabet I/S intends to issue amendments to the tender documents after Negotiation round 1 before requesting the first revised tender. NEGOTIATION ROUND 2 - FEEDBACK Negotiation round 2 will be conducted on the basis of the first revised (revised tender 1) tender submitted by each Tenderer in accordance with ITT section 7.2. The purpose of Negotiation round 2 is to provide the Tenderer with feedback on the first revised tender. Negotiation round 2 is intended to provide sufficient clarity on the requirements in the tender documents to enable the Tenderer to submit a compliant second revised tender. The first revised tender will not form the basis for award of the Contract. Negotiation meetings in Negotiation round 2 will be based on written submissions from the Tenderers. The requirements for the content of a complete revised tender are described in ITT section 7.2. The Metroselskabet I/S may issue amendments to the tender documents after Negotiation round 2 in accordance with ITT section 9.2 . However, the Metroselskabet I/S expects the

majority of amendments to have been issued prior to Negotiation round 2 and as a result of the negotiations conducted during Negotiation round 1. NEGOTIATION ROUND 3 - CLOSING THE NEGOTIATIONS Negotiation round 3 will be conducted on the basis of the second revised tender (revised tender 2) tender submitted by each Tenderer in accordance with ITT section 7.2. The purpose of Negotiation round 3 is to conclude the negotiation phase and to enable each Tenderer to submit a fully compliant second revised tender to form the basis for award of the Contract. Negotiation meetings in Negotiation round 3 will be based on written submissions from the Tenderers. The requirements for the content of a complete revised tender are described in ITT section 7.2. Metroselskabet I/S intends to award the Contract on the basis of the second revised tender submitted following Negotiation round 3. However, Metroselskabet I/S reserves the right to conduct further negotiation rounds if deemed necessary.

5. Lott

5.1. Lott: LOT-0001

Titlu: Copenhagen - New Metroline, M5 Civil Works South.

Deskrizzjoni: This tender presents a substantial opportunity for prospective contractors to bid for the M5 Civil Works South (CWS) package, an important component of the Copenhagen metro system's expansion. This project is of significant strategic importance, as the M5 line is a fully automated driverless metro system that will not only enhance passenger service on existing metro corridors but also extend connectivity to emerging urban development areas, including Kløverparken, Refshaleøen, and Lynetteholm in the East Harbour. The M5 is designed to operate as an independent system, ensuring that its construction and subsequent operation do not disrupt the existing M1-M4 metro lines. MAIN COMPONENTS OF THE M5 CIVIL WORK The M5 south consists of approx 6.5 km twin bored tunnels, 5 underground stations(incl. 3 transfer stations),2 underground crossovers,5 cross passages,1 ramp, approx 2.0 km viaduct,1 elevated station, 1 viaduct cross-over,1 elevated bifurcation, short embankment sections. For further details on scope ref. is made to M5-2.1-CMBS-SW and M5-2.2-CWS-SW PHASES: The current tender, Phase 1, encompasses the southern section of the line, from north-west of København H to north of v/Prags Boulevard, with an anticipated operational commencement in 2036. The broader vision includes phase 2 north of v/Prags Boulevard to Lynetteholm opening in 2045 and a potential future extension to form a ring line, signifying a long-term commitment to urban mobility. Phase 2 is not included in this tender. CONTRACT SPLIT OF M5: The M5 project as a whole consists of several contracts: • M5 Civil Works South (this contract) • M5 Transportation System South contract (tendered out as a separate contract in parallel with M5 Civil Works South) • Operation and Maintenance South contract (will be tendered out at a later stage) • Enabling Works contracts, e.g. relocation of utilities, relocation works at Kh etc. (enabling works will be tendered out in separate contracts) • Station and Shaft areas (will be tendered out at a later stage) • Canopy contracts (will be tendered out at a later stage). CONTRACT The contract is structured as a design & build contract under ABT18 terms, placing comprehensive responsibility for both design and execution upon the Contractor. This two-phase approach—design followed by execution—is a standard framework for complex infrastructure projects. An extensive market dialogue has been carried out before issuing the tender. The purpose of the market dialogue was to learn from the market what would constitute an attractive contract. Metroselskabet I/S is grateful for all the potential tenderers who took their time to participate in the dialogue and those provided input. INDICATIVE TIMESCHEDULE FOR THE PROCUREMENT Issue of invitation to tender September 29 2026 Launch meeting (individual meetings) October 27 – 29 2026 Deadline for submission of initial tender (submission 1): December 15. 2026 at 14:00 (local Danish time) Negotiation meetings January 4. – April 24 2027 Issue of addendum to tender documents May 4 2027 Deadline for submission of revised tender 1 July 26-28 2027 Negotiation meetings August 23-25 2027 Deadline for submission of revised tender 2 October 4-6 2027 Negotiation meetings October 19-21 2027 Deadline for submission of revised tender 3 November 9-11 2027 Notification of award decision December 20 2027 Expiry of standstill period December 30 2027 Signing of Contract Agreement February 2028 The time-schedule may be subject to change. REQUEST FOR SUPPLEMENTARY INFORMATION AND DOCUMENTATION:

Metroselskabet reserves the right to request applicants to supplement, clarify or complete the application for prequalification, including the information and documentation submitted in relation to the grounds for exclusion, the minimum requirements and the selection criterion, within an appropriate time limit, in accordance with article 76(4) of the Utilities Directive (Directive 2014/25/EU). NOTIFICATION OF PREQUALIFICATION: All applicants will, in accordance with section 2(2)(1) of the Danish Complaints Board for Public Procurement Act (Act No. 492 of 12 May 2010 with subsequent amendments) (lov om Klagenævnet for Udbud), simultaneously and in writing be notified of the decision taken regarding selection of applicants. QUESTIONS AND ANSWERS Any questions regarding the prequalification phase must be uploaded to Metroselskabet's procurement portal (Byggeprojekt). Questions will be answered on an ongoing basis and as soon as possible. Questions received no later than 12 days prior to the prequalification deadline will always be answered, unless the nature of the question precludes Metroselskabet from answering the question no later than 6 calendar days before the expiry of the prequalification deadline. Questions submitted after the above deadline, but earlier than 6 calendar days before the expiry of the prequalification deadline, will also be answered, unless the nature of the question precludes Metroselskabet from providing an answer no later than 6 calendar days before the expiry of the prequalification deadline. Questions submitted later than 6 calendar days before the expiry of the prequalification deadline cannot be expected to be answered. Questions and answers will be published in anonymised form in Byggeprojekt. REQUIREMENTS FOR APPLICATION FOR PREQUALIFICATION Applications for prequalification must be submitted by uploading a completed ESPD. The ESPD has been generated and published in Metroselskabet's procurement portal in Byggeprojekt together with the other parts of the tender material.

Reference is made to the Danish Competition and Consumer Authority's "Guide til ESPD – Det fælles europæiske udbudsdokument", which contains guidance on completing the ESPD: <https://www.kfst.dk/vejledninger/kfst/dansk/2020/20203108espddetfaelleseuropaeiskeudbudsdokument/> If the applicant is a consortium or similar, and/or if the applicant relies on supporting entities, a consortium declaration and/or a declaration of support, as applicable, must also be uploaded for the relevant undertakings.

APPLICATIONS FROM CONSORTIA OR SIMILAR If the applicant is a consortium or similar grouping of undertakings (a "consortium"), the applicant must indicate this in Part II, Section A of the ESPD. Each participant in the consortium must complete and upload an ESPD as described above. The participants in the consortium must furthermore complete and sign a consortium declaration, corresponding to the template in Instructions to Tenderers, whereby the consortium participants assume joint and several and unlimited liability for the performance of the contract if the contract is awarded to the consortium. The applicant is not required to use the template, but since the declaration to be submitted must have the same content as the template, the applicant is encouraged to do so.

APPLICATIONS BASED ON SUPPORTING ENTITIES If the applicant relies on the economic and financial capacity and/or the technical and professional capacity of supporting entities, such as a parent company, a subcontractor or similar, the applicant must indicate this in Part II, Section C of the ESPD. Each of these supporting entities must complete and upload an ESPD as described above. As part of the application for prequalification, the applicant must furthermore upload a signed declaration of support in accordance with article 79, subs. 1 of the Utilities Directive (Directive 2014/25/EU), corresponding to the templates in the Instructions to Tenderers, from each of the supporting entities on which the applicant relies. The applicant is not required to use the template but since the declaration(s) to be submitted must have the same content as the template, the applicant is encouraged to do so.

REJECTION OF APPLICANTS ESTABLISHED IN TAX HAVENS Metroselskabet will exclude applicants established in a country that is included in the EU list of non-cooperative jurisdictions for tax purposes and has not acceded to the WTO's Government Procurement Agreement or other trade agreements that oblige Denmark to open the market for public procurement to applicants established in that country.

TENDER FEE Metroselskabet will pay a tender fee of EUR 1,000,000.00 to Tenderers participating in Negotiation round 1, ref. made to ITT section 8.1. The Metroselskabet will pay an additional tender fee of EUR 1,000,000.00 to Tenderers who comply with all of the following conditions: Participation in clarification and negotiation meetings relating to the revised tender(s) in Negotiation round 2 and 3 and further negotiation rounds. No tender fee is paid for submitting further revised tenders. If the Tenderer is a consortium or similar grouping of undertakings, the tender fee will only be paid to the consortium and not to each participant in the consortium. For the successful Tenderer, the tender fee will be deducted in the first payment related to the Contract.

5.1.9. Kriterji tal-għażla

Sors tal-kriterji ta' għażla: Avviż

Kriterju: Referenzi fuq xogħlijiet speċifiċi

Deskrizzjoni tal-kriterju ta' selezzjoni: **MINIMUM REQUIREMENTS** The applicant must, within the last fifteen (15) years prior to the expiry of the prequalification deadline set out in section 5.1.12 below, have completed two projects: • one (1) project showing experience with design, construction and project management of an underground Metro project in European Economic Area (EEA) and/or UK, and • One (1) project showing experience with design, construction and project management of a Metro project above ground in EEA and/or UK. By "completed" is meant that the project has been formally handed over and accepted by the contracting authority (employer), in accordance with sections 43–44 of ABT 18, or an equivalent taking-

over or completion procedure under the applicable contract or governing law. By "design" is meant the final project planning of detailed design. It is not required that the applicant has carried out the entirety of the design work as part of the project, provided that the applicant has had overall responsibility for the design. Overall responsibility is understood as the contractual responsibility for the project. By "project management" is meant overall management and coordination of design and construction. By "Metro project" is meant an urban rail-based mass transit system (excluding heavy rail and conventional intercity rail) By "underground metro project" is meant a metro a metro constructed primarily below ground (e.g. tunnels). By "metro project above ground" is meant a metro constructed primarily above ground (e.g. viaducts and/or bridges). The extended reference period of fifteen (15) years, as compared to the standard five (5) year period, has been applied in consideration of the complexity and typical duration of metro civil works projects and in order to ensure the widest possible competition by enabling a greater number of potential applicants to demonstrate relevant experience. DOCUMENTATION As preliminary documentation of the applicant's fulfilment of the minimum requirements for technical and professional capacity (I and II), the applicant must, in Part IV, Section C of the ESPD, provide references for projects that meet the minimum requirements set out above. CONTENT OF THE REFERENCES: The references should as a minimum include information on: • The name of the contracting authority (employer) and contact person, including telephone number and email address. • A brief description of the project, including the applicant's role in the project. • The contract period, understood as the period from the conclusion (signing) of the contract until handover, as defined under "completed" above in this section 5.1.9. • The contract value in DKK or EUR. If the applicant completed the project to which the reference relates as part of a consortium and/or relies on supporting entities, the applicant should, in respect of its role in the project, state the following: • If the applicant completed the project to which the reference relates as part of a consortium, this should appear from the reference with a clear indication of which task(s)/function(s) each participant in the consortium has carried out (if any).
