Servizzi pubbliċi ġenerali

Taqsimha II: L-għan

II.1. L-għan tal-ksib

II.1.1. Titlu

Strategic Technology Partner Services.

II.1.2. Kodiċi ewlieni CPV

32400000 Networks

II.1.3. It-tip ta' kuntratt

Servizzi

II.1.4. Deskrizzjoni qasira

City of York Council and Harrogate Borough Council will require a partner to provide:

- 1) Upgrade existing infrastructure to gigabit and beyond capability within this financial year.
- 2) Roll out new Infrastructure capable of gigabit (and beyond) capability.
- 3) Research, Development, and production of new, innovative product, services or works.
- 4) Technology platforms capable of IOT applications.

- 5) Collection and separation of data services.
- 6) Assist in the integration of city-wide technology.
- 7) Asset and Service Management across York and Harrogate (and any other public bodies in Yorkshire who wish to join).

The Partner will be expected to co-create new value with city data by engaging with not only public-sector bodies but also the social entrepreneur, schools, academies, citizens, community groups, universities, SME's, charities and start-ups.

tar-reviżjoni u ta' l-assesjar ta' l-assigurazzjoni tal-kwalità tas-sistema, 72250000 Servizzi ta' sistemi u appoġġ, 72300000 Servizzi tad-data, 72315000 Servizzi ta' amministrazzjoni u appoġġ tad-data tan-network, 72315200 Servizzi ta' amministrazzjoni tad-data tan-network, 72400000 Servizzi ta' l-internet, 72410000 Servizzi ta' provvedimenti

II.2.3. Il-post tat-twettiq

Kodiċi NUTS: UKE Yorkshire and the Humber

II.2.4. Deskrizzjoni tal-akkwist

City of York Council (CYC) and Harrogate Borough Council (HBC) have a joint ICT Management Service, and in part is a result of the strategic synergy between CYC and HBC's current and future ICT requirements. Additionally, CYC and HBC are very similar in terms of their demographic characteristics and both are considering their wider Smart City/Borough aspirations.

Key to achieving the Smart City objective is the quality, durability, ongoing viability and technically future proofed nature of the underlying connectivity infrastructure in CYC and HBC. This is especially important as it is the platform for the provision of other supporting technologies and services.

From a regional perspective, CYC and HBC are geographically close enough to achieve economies of scale when procuring the underlying infrastructure to drive their Smart City aspirations. Once the infrastructure is embedded, and a strategic plan engaged for delivery of services over the digital platform, it may also provide a spring-board for rolling out the infrastructure and services to other agencies and interested partners in the region.

CYC has already established itself as a 'Fibre City' and is providing some unified services (CCTV, UTMC, Education, Corporate, and Public Access) via the gigabit fiber infrastructure in the City. This has been possible because the City chose a joint approach to delivering connectivity for its corporate, education and UTMC networks via a single managed service delivery partner. CYC is currently "in Contract" with this managed service provider, for services that include but are not restricted to the design, management, and support of the corporate (and some partners) voice, data and wireless estate. This is supported and managed by an on-site team with a back up from their engineering and consultancy teams as required. The scope of the MSA includes the fiber backbone connectivity within the City. The MSA contract is due to expire 8th of September 2018.

HBC, on the other hand, have a number of disparate support and maintenance contracts and connectivity agreements in place with different providers and duration periods for its voice/data & CCTV connectivity layer and active network components.

This procurement is likely to use either the Competitive Dialogue or Competitive Procedure with Negotiation procedures.

II.2.14. Informazzjoni addizzjonali

Suppliers wishing to register for the Supplier Engagement Day should send an e-mail to digitalcity@york.gov.uk. We will then be able to issue details of the session, likely to be held in York in February 2018.

II.3. Id-data stmata tal-pubblikazzjoni tal-avviż tal-kuntratt
