Elementi prinċipali tal-proċedura: The Norwegian Coastal Administration shall procure three (3) fully electric service vehicles for its Norwegian Coastal Administration's environmental preparedness activity area: • one goods van to Tromsø • one goods van for Horten • one passenger vehicle for the Horten vehicles shall be used under varying and demanding driving and operating conditions. To ensure efficient operation, lower maintenance costs, simple training and good spare parts management, standardisation is greatly emphasised. The Norwegian Coastal Administration would also like tenders for a service agreement for the future for all the vehicles as an option. The vehicles shall as far as possible be identical and based on the same make, model and model generation. The contracting authority would like the vehicles to be delivered as the same vehicle model as the starting point, where the differences are primarily related to the number of seats and registration class (goods van /passenger car). For example, the vehicles can be based on the same platform and model series, such as Willen ID. Buzz or Ford E-Transit/Tourneo delivered both as goods vans and passenger cars, or equivalent systems from other manufacturers. If the tenderer has stocked used or demobles with a maximum age of three years, which are delivered with a guarantee and otherwise fulfil the requirements of the procurement, tenders can also be submitted for such vehicles.
