### **II.2. Beschrijving**

#### **II.2.3. Plaats van uitvoering**

NUTS-code: UK United Kingdom

#### **II.2.4. Beschrijving van de aanbesteding**

The Riverside Group Ltd are seeking to procure a lone worker solution to be used by Riverside employees whilst they are working alone or in dangerous or vulnerable situations. Looking at a wide variety of solutions on offer including lone working devices, mobile applications, wearable tech etc to identify the most suitable for our colleagues. The solution should provide 24/7 monitoring and a secure and dependable link to an alarm receiving centre. It should also have two-way audio and GPS locating capabilities with solutions in place for colleagues working in remote areas with no mobile network signal. The solution should allow for alerts to be raised in case of an emergency and also for timed alerts to be set when colleagues are on scheduled visits with customers. A solution(s) is sought to suit a wide range of colleagues including those who lone work a majority of the time and those who only occasionally lone work.

A management portal is also required to manage the solutions allocated to colleagues, to maintain their emergency contact and escalation contact details and to obtain detailed reports required to monitor usage and compliance across Riverside. Reporting and analysis on the number of alerts, the causes of alerts and full audit trail of each alert raised is required. The system should have the capability to interface with other software, particularly Tableau software and should allow for a breakdown in the organisation hierarchy with restrictions on user access and permission levels.

We are looking for potential suppliers to register their interest to participate in a Soft Market Test to enable key business stakeholders to engage with suppliers operating in the lone worker solution market, and to gather information to help shape our requirements in advance of a formal tendering process. To register your interest please go to <http://redirect.transaxions.com/events/udu2V>.
