2.1. Procedure

Titel: Substance register and exposure register.

Beschrijving: NTNU is Norway's largest university, with approx. 43,500 students and 8,500 employees. NTNU currently has up to 35,000 safety data sheets for the substance register. NTNU has a comprehensive laboratory and workshop activity, with approx. 300 laboratories and workshops with relatively extensive use of chemicals and gases, in addition to many laboratories and workshops with more limited activity. NTNU currently has approx. 300 persons with editing access in the substance register. The aim is to procure a user friendly substance register and exposure register, which supports both laboratory and workshop activities and ordinary operations. The system shall be a practical tool for research, teaching and operational environments, which contributes to more efficient work flow, increases the quality of the work and supports NTNU's compliance with relevant requirements in Norwegian and European rules. The solution will be used in the training of students. The offered system shall be complete, and it must have been fully tested so that it has been implemented and been in use by customers with similar needs. See Part 2 Annex 1 the Contracting Authority's requirement specifications for further information. A continual service contract shall be signed with one tenderer. The contract will be signed as soon as possible after the waiting period has expired. The system shall be handed over and ready for use three months after the contract has been signed, tentatively 01.03.2027. The contract will be valid for 3 years, with an option for an extension until the contract is terminated by one of the parties.

Identificatiecode van de procedure: 19f3abcb-a5e6-4715-a175-b1abfd1191a2

Interne identificatiecode: 26-0148

Type procedure: Onderhandelingsprocedure met voorafgaande oproep tot mededinging / mededingingsprocedure met onderhandeling

De procedure wordt versneld: neen

Belangrijkste kenmerken van de procedure: The competition will be held in two stages. The competition begins with a qualification phase (stage 1). Only tenderers who fulfil the qualification requirements and who have been invited will be able to submit a tender. The contracting authority plans to invite 3-5 of the qualified tenderers to submit a tender (phase 2), provided that there are a sufficient number of qualified applicants. If there are more qualified

applicants than the number the contracting authority plans to invite to submit a tender, the contracting authority will choose among the qualified tenderers on the basis of the selection criteria in point 5, if there is a Requirement of Experience. All invited tenderers will have their tenders evaluated. Following the negotiations and any updated tenders, the final evaluation will be made and the contract will be awarded. The contracting authority reserves the right to award the contract without negotiations, cf. the Public Procurement Regulations § 23-7 (5).

2.1.4. Algemene informatie

Aanvullende informatie: In accordance with loa § 5b, climate and environmental considerations shall as a main rule be weighted with a minimum of 30% in the award criteria. The award criteria after the first and second periods can be replaced or combined with climate and environmental requirements in the requirement specifications if this gives a better climate or environmental effect. The procurement is for a cloud based service, where the operation of the data centre is assessed to be responsible for most of the climate and environmental impact. The contracting authority has carried out a market mapping of which data centre potential tenderers use, including locations, as well as how these data centres affect climate and the environment. Either a computer centre is used from industry-leading suppliers such as Microsoft and Amazon, who have come a long way in their efforts to reduce climate and environmental impact, or their own computer centre in Norway. The market is considered mature. The data centres are largely based on renewable energy. The contracting authority has determined that setting the minimum requirements for PUE (Power Usage Effectiveness) and REF (Renewable energy Factor) gives a better effect than using climate and environment as the award criteria in this procurement.

Niet-nakoming van verplichtingen op het gebied van arbeidsrecht: Is the tenderer aware of breaches of provisions on working conditions as stated in national law, the relevant notice or procurement documents or Article 18 (2) of Directive 2014/24/EU.

Niet-nakoming van verplichtingen op het gebied van sociaal recht: Is the tenderer aware of breaches of provisions on social conditions as stated in national law, the relevant notice or procurement documents or Article 18 (2) of Directive 2014/24/EU.

Vervalsing van de mededinging: Has the tenderer entered into agreement(s) with other tenderers with the intention of turning the competition?

Ernstige beroepsfout: Has the tenderer committed serious errors in professional practice? If relevant, see the definitions in national law, the relevant notice or procurement documents.

Gaf valse verklaringen af, hield informatie achter, was niet in staat vereiste documenten te verstrekken of verkreeg vertrouwelijke informatie over deze procedure: Have the tenderer: a) given grossly incorrect information when notifying the information required to verify that there is no basis for rejection, or of the qualification requirements being met, b) failed to provide such information, c) subject to immediately submitting the supporting documents requested by the Contracting Authority, or d) improperly affecting the Contracting Authority's decision process to acquire confidential information that could give this an unlawful advantage in connection with competition, or negligently has given misleading information that can have a significant influence on decisions on rejection, selection or award?

Belangenconflict als gevolg van deelneming aan de aanbestedingsprocedure: Are tenderers aware of a conflict of interest as stated in national law, the relevant notice or procurement documents?

Directe of indirecte betrokkenheid bij de voorbereiding van deze aanbestedingsprocedure: Has the tenderer or an entity associated with the supplier advised the contracting authority or in another way been involved in the planning of the competition?

Voortijdige beëindiging, schadevergoeding of andere vergelijkbare sancties: Has the tenderer committed significant breaches of contract in connection with the fulfilment of a previous public contract, a previous contract with a public contracting authority or a previous concession contract, where the breach has led to the cancellation of the contract, compensation or other similar sanctions?

Niet-nakoming van de verplichting tot betaling van socialezekerheidsbijdragen: Have tenderers failed to fulfil all their social security obligations in the country where they are established and in their member state, if this is a different country than what he is established in?

Niet-nakoming van de verplichting tot betaling van belastingen: Has the tenderer not fulfilled his tax and duty obligations in the country in which he is established, and in the contracting authority's member state, if this is a different country than what he is established in?

Staking van bedrijfsactiviteiten: Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of tenderers made mandatory in accordance with the current national law without the possibility for exceptions.

Faillissement: Is the tenderer in a bankruptcy situation? Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of tenderers made mandatory in accordance with the current national law without the possibility for exceptions.
