Leeds Teaching Hospitals NHS Trust (the Trust) has been awarded government funding as part of the Health Infrastructure Plan (Phase 1) (HIP 1) to redevelop the Leeds General Infirmary. The Trust is considering the procurement and contracting strategy for the project. The Trust wishes to engage with potential contractors and consultants on the delivery options being considered by the Trust in order to identify the most appropriate procurement and contracting approach to maximise market interest in the project.

The Trust will be holding an open day on 24 March in the city centre of Leeds. The event will involve presentations by key members of the Trust's Executive and Programme Team about the vision for the project, the progress to date and future programme, and those options being considered for its delivery. There will be an opportunity for contractors and consultants to ask questions and provide feedback on the Trust's proposals. Following the event, the Trust also intends to conduct 1:1 meetings with a representative sample of organisations to allow for more detailed discussion surrounding the proposed delivery arrangements. In addition, any organisations not invited to participate in face to face discussions may submit any observations and comments on the procurement and contracting approach to the address stated at I.1. Further information will also be provided at the event for how organisations can submit feedback.
