Procedura jest przyspieszona: nie

Główne aspekty procedury: The procurement will be conducted as a negotiated procedure, and the framework agreement will expectedly be awarded to the tenderer submitting the most economically advantageous tender based on the award criterion, see section 7 of the tender specifications. The procurement process is as follows: 1. Request for prequalification: The economic operators submit a request for prequalification. Based on the requests received, Banedanmark will prequalify four (4) economic operators. 2. Invitation to submit an initial tender: Banedanmark invites the prequalified economic operators to submit an initial tender. Accordingly, tenders may only be submitted by economic operators that have been prequalified. 3. Submission of initial tender: The prequalified economic operators submit an initial tender. The initial tenders form the basis of the subsequent negotiation meetings. Please

note: Banedanmark reserves the right to award directly on the basis of initial offers, in which case no negotiation meetings will be held. 4. Negotiation meetings: Tenderers having submitted an initial tender in due time will subsequently be invited to a negotiation meeting. The negotiations will be conducted in accordance with the principle of equal treatment, which means that all tenderers will be allotted the same time for negotiations with Banedanmark. One (1) negotiation meeting will be held with each tenderer. The negotiation meeting is expected to have a maximum duration of four (4) hours, but Banedanmark reserves the right to change the duration should this prove to be required. Before the negotiation meeting, Banedanmark will forward an agenda for the meeting and a specification of the key issues which Banedanmark wishes to discuss with the tenderer. It should be noted that this specification is not exhaustive and that other issues than those specified beforehand may also be discussed at the individual negotiation meetings. The purpose of the negotiations is partly to allow the tenderers to optimise their tenders, partly to ensure that the tenderers submit compliant tenders. Finally, the negotiations may also cause Banedanmark to revise the tender documents. During the negotiations, Banedanmark will provide the individual tenderer with general information about its overall view of the strengths and weaknesses of the initial tender. However, it is the sole responsibility of the tenderer to ensure that it ultimately submits a compliant final tender. Banedanmark wishes as a starting point to negotiate on these points: Type-approval process of the offered fasteners Process for retrofitting of Sleeper Factory (if necessary) Special conditions and elements that affect delivery time and ability Logistics (including warehousing, delivery and transport) Other issues that are relevant to the process will also be subject for the negotiation meetings. The expected time of the negotiation meetings is set out in clause 3. The negotiation meetings will be held at the following address: Banedanmark Carsten Niebuhrs Gade 43 1577 Copenhagen V Denmark As an exception, negotiation meetings can be held via Teams. The tenderer is requested to inform Banedanmark about which persons will represent the tenderer at the negotiation meeting (name, position and company name). The information should be provided via the "Messaging" section in EU-Supply no later than four (4) calendar days before the meeting. Banedanmark will prepare minutes after each negotiation meeting. These minutes will not be made public. The individual minutes will only be sent to the tenderer participating in the meeting. If questions of a general nature were discussed at a negotiation meeting, the answers to such questions in anonymised form will be communicated to all tenderers via EU-Supply, see clause 2.3 of the tender specifications. The tenderer will be given the opportunity to comment on and confirm the information in the minutes. No independent, legal relevance for the submission of a final tender may be assigned to the minutes, as the final tender is to be submitted solely on the basis of the final tender documents. Based on the negotiation meetings, Banedanmark will prepare revised tender documents, which will form the basis of the tenderers' final tenders. As part of the revision, Banedanmark, in full compliance with the principles of equal treatment and transparency, may change the contents of, withdraw or add new "general requirements" or "evaluation requirements". Moreover, Banedanmark may make changes or additions to the information/documents to be attached to the final tender. However, the changes/additions may not cause the characteristics of the services put out to tender to change or cause the services to no longer be within the scope of the description provided in the contract notice. Moreover, fundamental elements may not be changed, including "minimum requirements". However, linguistic clarifications, correction of obvious errors and inexpediciencies, etc. are always allowed, in full compliance with the principles of equal treatment and transparency. 5. Publication of revised tender documents: After completion of the negotiation meetings, Banedanmark will issue revised tender documents, which will form the basis of the tenderers' final tenders. 6. Submission of final tender: The tenderers submit their final tenders, which will be evaluated by Banedanmark. 7. Contract award: Banedanmark will award the framework

agreement to the tenderer which has submitted the most economically advantageous tender based on the award criterion. The economic operators participating in the tender process will not be paid for participating in the process. For a detailed review of the above process, see the description provided in the tender material.

Russian sub suppliers and supporting entities are also covered by the sanctions if their

contribution accounts for 10% or more of the contract value. Before making the award decision, Banedanmark will request to receive documentation that the tenderer is not comprised by the prohibition, see clause 8. For this purpose, the tenderer may use Appendix C "Solemn declaration re. fifth package of sanctions". 5) The Danish Investment Screening Act : In section 1.1.5 of the Tender Specifications, Banedanmark has requested the tenderers to state whether their conclusion of the framework agreement is subject to the requirement for authorisation under the Danish Investment Screening Act. Further guidance on the Act and its scope of application is available here (in Danish): <https://erhvervsstyrelsen.dk/vejledning-aktiviteter-omfattet-af-investeringscreeningsloven>. The tenderer is responsible for applying for and obtaining authorisation if the tenderer's conclusion of the framework agreement is subject to the Act. Banedanmark's award decision is made subject to the successful tenderer submitting documentation. Banedanmark reserves the right during the procurement process to request candidates and tenderers to provide information about whether their contract conclusion is covered by the Act and to provide a status on any application for authorisation. 6) Participation in the tender can only be done electronically via the contracting authority's electronic tendering system. In order to access the tender documents and participate in the process, interested companies must register online. As part of their tender, the tenderer must complete and submit an ESPD as preliminary evidence of the conditions mentioned in Section 148 of the Public Procurement Act, cf. Section 12 of the Implementing Order. In the case of a group of undertakings (e.g. a consortium), a separate ESPD must be submitted for each of the participating economic operators. If the tenderer relies on the capabilities of other entities, an ESPD must be submitted for each of the entities on which the tenderer relies. If the contract is awarded to a group of economic operators (e.g. a consortium), the participants in the group must assume joint and several liability and appoint a joint authorized representative. Before the award decision, the tenderer to whom the contracting authority intends to award the contract must provide documentation for the information provided in the ESPD in accordance with sections 151 and 152 of the Public Procurement Act, cf. section 12 of the Implementation Order. Banedanmark may require the submission of documentation at any time during the tender process if deemed necessary. 7) Banedanmark will accept the documentation for grounds for exclusion that appears from e-Certis, cf. section 152(3) of the Danish Public Procurement Act, cf. § 12 of the Implementation Order. Documentation may include the following forms of evidence: - An extract from the relevant register or equivalent document issued by a competent judicial or administrative authority, showing that the applicant is not covered by the grounds for exclusion, or A certificate issued by the competent authority in the country concerned as proof that the applicant is not covered by the grounds for exclusion. If the country concerned does not issue the abovementioned documents or certificates, or these do not cover all the grounds for exclusion, they may be replaced by a declaration under oath. If the tenderer is found to be covered by a ground for exclusion, the tenderer has the option of initiating a self-cleaning procedure, cf. § 138 of the Danish Public Procurement Act, cf. § 11(1)(2) of the Implementation Order. 8) The candidate may rely on the capacities of other entities (e.g. a parent or a fellow subsidiary or a sub-supplier) regardless of the nature of the legal relationship between the candidate and such other entities. The supporting entities may not be affected by any of the exclusion grounds. The other entity(ies) on which the candidate relies must therefore also submit a completed ESPD with the information requested by Banedanmark. In the suitability assessment, in case a candidate relies on a supporting entity, Banedanmark will perform an overall assessment of the information provided by the candidate and the supporting entity. Together, they must meet the defined minimum requirements for suitability. In connection with obtaining documentation, a candidate/tenderer relying on the capacities of other entities must submit a letter of support proving that the relevant supporting

entity has a legal obligation towards the candidate/tenderer. The candidate/tenderer may use Appendix B "Template for declaration of support". 9) Tenders can only be submitted for the entire scope of the contract. 10) The contracting authority does not provide participation fees. 11) Mandatory exclusion grounds: Banedanmark must exclude a candidate from participating in the procurement procedure if the candidate is subject to the mandatory exclusion grounds mentioned in sections 134a, 135 and 136 of the Danish Public Procurement Act. Information on the discretionary exclusion grounds must be provided in the following sections of Part III "Exclusion grounds" of the ESPD: Section III.C: "Grounds relating to insolvency, conflicts of interests or professional misconduct". 13) The estimated contract amount is calculated on basis of available pricing information and the estimated future demand for fasteners in the contract period. The tenderer is responsible for applying for and obtaining authorisation if the tenderer's conclusion of the framework agreement is subject to the Act. Banedanmark's award decision is made subject to the successful tenderer submitting documentation. Banedanmark reserves the right during the procurement process to request candidates and tenderers to provide information about whether their contract conclusion is covered by the Act and to provide a status on any application for authorisation.

6) Participation in the tender can only be done electronically via the contracting authority's electronic tendering system. In order to access the tender documents and participate in the process, interested companies must register online. As part of their tender, the tenderer must complete and submit an ESPD as preliminary evidence of the conditions mentioned in Section 148 of the Public Procurement Act, cf. Section 12 of the Implementing Order. In the case of a group of undertakings (e.g. a consortium), a separate ESPD must be submitted for each of the participating economic operators. If the tenderer relies on the capabilities of other entities, an ESPD must be submitted for each of the entities on which the tenderer relies. If the contract is awarded to a group of economic operators (e.g. a consortium), the participants in the group must assume joint and several liability and appoint a joint authorized representative. Before the award decision, the tenderer to whom the contracting authority intends to award the contract must provide documentation for the information provided in the ESPD in accordance with sections 151 and 152 of the Public Procurement Act, cf. section 12 of the Implementation Order. Banedanmark may require the submission of documentation at any time during the tender process if deemed necessary.

7) Banedanmark will accept the documentation for grounds for exclusion that appears from e-Certis, cf. section 152(3) of the Danish Public Procurement Act, cf. § 12 of the Implementation Order. Documentation may include the following forms of evidence: - An extract from the relevant register or equivalent document issued by a competent judicial or administrative authority, showing that the applicant is not covered by the grounds for exclusion, or A certificate issued by the competent authority in the country concerned as proof that the applicant is not covered by the grounds for exclusion. If the country concerned does not issue the abovementioned documents or certificates, or these do not cover all the grounds for exclusion, they may be replaced by a declaration under oath. If the tenderer is found to be covered by a ground for exclusion, the tenderer has the option of initiating a self-cleaning procedure, cf. § 138 of the Danish Public Procurement Act, cf. § 11(1)(2) of the Implementation Order.

8) The candidate may rely on the capacities of other entities (e.g. a parent or a fellow subsidiary or a sub-supplier) regardless of the nature of the legal relationship between the candidate and such other entities. The supporting entities may not be affected by any of the exclusion grounds. The other entity(ies) on which the candidate relies must therefore also submit a completed ESPD with the information requested by Banedanmark. In the suitability assessment, in case a candidate relies on a supporting entity, Banedanmark will perform an overall assessment of the information provided by the candidate

and the supporting entity. Together, they must meet the defined minimum requirements for suitability. In connection with obtaining documentation, a candidate/tenderer relying on the capacities of other entities must submit a letter of support proving that the relevant supporting entity has a legal obligation towards the candidate/tenderer. The candidate/tenderer may use Appendix B "Template for declaration of support". 9) Tenders can only be submitted for the entire scope of the contract. 10) The contracting authority does not provide participation fees. 11) Mandatory exclusion grounds: Banedanmark must exclude a candidate from participating in the procurement procedure if the candidate is subject to the mandatory exclusion grounds mentioned in sections 134a, 135 and 136 of the Danish Public Procurement Act. Information on the mandatory exclusion grounds set out in sections 135 and 136 must be provided in the following sections of Part III "Exclusion grounds" of the ESPD: Section III.A: "Grounds relating to criminal convictions" Section III.B: "Grounds relating to the payment of taxes or social security contributions" Section III.C: "Grounds relating to insolvency, conflicts of interests or professional misconduct". 12) Discretionary exclusion grounds In addition, Banedanmark will exclude a candidate to whom one or more of the circumstances specified in section 137(1)(i)-(iii) and (v) of the Danish Public Procurement Act applies in the event of: the candidate's non-compliance with environmental, social and labour regulations; the candidate's (i) bankruptcy, (ii) insolvency, (iii) composition with creditors under which all creditors will be bound, (iv) a situation analogous to bankruptcy under national law, (v) assets being administered by a liquidator, and (vi) suspension of the business activities; the candidate's agreements with other economic operators with a view to distortion of competition; the candidate's attempt to influence the decision-making process of the contracting authority. Information on the discretionary exclusion grounds must be provided in the following sections of Part III "Exclusion grounds" of the ESPD: Section III.C: "Grounds relating to insolvency, conflicts of interests or professional misconduct". 13) The estimated contract amount is calculated on basis of available pricing information and the estimated future demand for fasteners in the contract period. The maximum contract value is based on the calculated estimated value to which is added 40% to cover fluctuations in the contract period

5.1.9. Kryteria kwalifikacji

Źródła kryteriów wyboru: Uwaga

Kryterium: Inne wymagania ekonomiczne lub finansowe

Opis kryterium selekcji: The candidate must submit the following information as preliminary proof that the candidate meets the minimum requirements for suitability in relation to economic and financial standing: - Shareholders' equity for the last financial year available. The minimum requirement is that the candidate's shareholders' equity for the last financial year available must be at least 100 million DKK. If the candidate relies on the economic and financial capacity of other entities, shareholders' equity will be calculated as a total amount for the undertaking and such other entities for the last financial year available. For a group of economic operators (e.g. a consortium), shareholders' equity will be calculated as the undertakings' overall shareholders' equity for the last financial year available. This information is to be provided in section IV.B of the ESPD. Banedanmark will accept the following documentation of compliance with minimum requirements: Shareholders' equity for the last financial year available: The undertaking's balance sheet or extracts thereof for the last financial year available, if publication of the balance sheet is compulsory in the country where the undertaking is established, or other documentation of the amount of the undertaking's shareholders' equity. For a group of economic operators (e.g. a consortium), the information must be provided for each undertaking participating in the group. If the undertaking relies on the economic and financial capacity of other entities (e.g. a parent company, a fellow subsidiary or a sub-supplier), the information must also be provided for these entities.

Kryterium: Inne wymagania ekonomiczne lub finansowe

Opis kryterium selekcji: The candidate must submit the following information as preliminary proof that the candidate meets the minimum requirements for suitability in relation to economic and financial standing: - Solvency Ratio for the last financial year available. The minimum requirement is that the candidate's solvency ratio for the last financial year available must be at least 20%. The solvency ratio is calculated on the basis of this formula: $\text{Solvency ratio} = (\text{equity} / \text{total assets ultimo}) * 100$ If the tenderer relies on the economic and financial capacity of other entities, the sum of the equity of the business participants and the sum of their total assets is first calculated. The ratio between these two figures is then calculated. In the case of an association of businesses (e.g. a consortium), the sum of the equity of the business participants and the sum of their total assets is first calculated. The information must be provided in ESPD section IV.B. Solvency ratio for the last financial year available Presentation of annual accounts or extracts thereof, or a statement of the solvency ratio for the latest available financial year, depending on when the company was established or started its business, if the figures for this solvency ratio are available. In the case of an association of companies (e.g. a consortium), the information must be provided for each of the participating companies in the association. If the company relies on the economic and financial capacity of other entities (e.g. a parent company, sister company or subcontractor), the information must also be provided for these entities.

Kryterium: Referencje dotyczące określonych usług

Opis kryterium selekcji: A list of the candidate's most significant, comparable references for fasteners for monoblock sleepers within the last 3 years, see sections 5.1.9 of the contract notice. One reference is defined as a contract covering deliveries to one customer. The list of references cannot contain more than three (3) references, regardless of whether the candidate is an individual undertaking, whether the candidate relies on the technical and professional ability of other entities, or whether the candidate is a group of economic operators (e.g. a consortium). If more than three (3) references are listed, only the first three (3) references listed in the ESPD will be considered. Any additional references will be disregarded. Each reference must include the following information : • A description of the relevant supply. The description of the supply should also contain a description of the scope of the supply. The description must include confirmation that the fastener holds either an EC-declaration or EC-verification according to TSI on UIC60 rails • The economic value of the supply (amount) • The date of the supply (start and end dates). Only references relating to deliveries performed at the time of submission of the request for prequalification will be considered. This means, for ongoing references, only the deliveries performed up until the time of submission of the request for prequalification will be included in the assessment of the reference • The name of the customer (recipient). It is a minimum requirement that the candidate specifies minimum one (1) and no more than three (3) references within the last 3 years covering delivery of fastening systems, that hold an EC-verification or EC-declaration according to TSI on UIC60 rails. This information is to be provided in section IV.C of the ESPD. If the candidate provides the information in an appendix to the ESPD, Banedanmark will only consider text and not images, illustrations, etc. Banedanmark will accept the following documentation of compliance with minimum requirements: The list of references specified by the candidate in the ESPD will serve as final documentation of the information provided as regards the candidate's technical and professional ability. However, Banedanmark reserves the right to contact the candidate or the customer named in the reference with a view to verifying the information provided about the reference, including the dates specified for the reference.

Kryteria zostaną wykorzystane do kwalifikacji kandydatów zapraszanych do drugiego etapu procedury

Kryterium: Referencje dotyczące określonych prac

Opis kryterium selekcji: If more than four (4) compliant requests for pre-qualification are submitted, Banedanmark will select the four (4) candidates who are deemed to be the most suitable to supply the goods required under the contract. The selection of candidates will be based on an assessment of which candidates have submitted the most relevant references relative to the goods to be supplied under the framework agreement. In its assessment of the relevance of references, Banedanmark will put most emphasis on references delivered to and put into operation under similar climatical conditions as in Denmark – especially concerning application of fasteners in corrosive environments, and how recent the deliveries have been made.
