If the equity ratio is between 15 pct. and 20 pct. the applicant can qualify if Equity exceeds EUR 228,000

Kryteria zostaną wykorzystane do kwalifikacji kandydatów zapraszanych do drugiego etapu procedury

Kryterium: Referencje dotyczące określonych dostaw

Opis kryterium selekcji: Technical and professional ability The suitability of applicants fulfilling the minimum requirements to economic and financial standing will be assessed based on technical and professional ability. The ability will be assessed based on references which can be filled in ESPD part IV.C. The applicant is allowed to submit up to 3 most comparable and relevant references undertaken in the past 5 years as part of the application. By "undertaken in the past 5 years" implies that the reference must not have been completed prior to the date reached when counting 5 years backwards from the submission date for prequalification.

References older than this will not be taken into consideration. References which have not yet been fully completed can be included as part of the application, however the applicant must describe the parts which have not yet been delivered, and this may affect the evaluation of the application, cf. section 2.3. The references should describe XLPE-insulated AC underground cables of 132 kV or higher, or cable systems at an equivalent voltage level, delivered and executed with-in Europe, and include: A specific description of deliveries, including: • Voltage level, cable type and tasks performed (e.g. design, fabrication, factory testing, supply, transport). • Length of the cable route and confirmation of delivery lengths, including the ability to de-liver cables in lengths of 1,500 m on a single drum with a maximum drum diameter of 4.2 m. • Delivery of cable systems, including handling of cable drums • Description of type testing according to IEC 60840, covering a 132 kV cable system with 1200 mm² conductor size, including electrical stress level at semi-conducting layers during type testing. The description of type testing is relevant for tests performed withing the last 5 years. • Production and test facilities for the power cables • Information on contact data (name, email, and phone number) for references • Date of initiation and final delivery (day, month, year) Any ambiguities and/or incomprehensibilities may have a negative effect on the selection of applicants. Please note the "description" box in ESPD part IV.C. can contain more text than is visible and it is possible to copy paste text into the box. If the applicant is relying on the capacity of other entities or the applicant is a group of economic operators the maximum number of references to be submitted must still be respected and cannot exceed 3 when combined. If more are submitted, the Contracting Authority will only consider the most recent references determined by date of final delivery, in this case not yet finished references will not be included. If the applicant relies on other entities capacity or is part of a group of economic operators the information concerning ESPD part IV.C must be submitted in separate ESPD's for each entity.
