2.1.4. Informacje ogólne

Informacje dodatkowe: The tenders submitted must be valid for a period of 3 months from the specified time limit for the submission of tenders. If the tenderer, during the negotiation phase, prepares and submits revised tenders, such tenders must also be valid for the period of 3 months from the specified time limit for these revised tenders. It should be noted that this is a negotiated procedure. With the exception of basic elements, changes may be made to tender documents and their contents as a consequence as part of the negotiation process. The tenderer's legal form is not required. If you wish to apply to participate in this tender process, the corresponding ESPD must be filled in. The ESPD for this tender process can be found in Comdia. The ESPD must be filled in in Comdia, after which it is submitted via "Save and Send". Guidelines for completing the ESPD can be found on the website of the Konkurrence- og Forbrugerstyrelsen, www.kfst.dk (The contracting entity does not take responsibility for the content of the guidance). Please note the following: - An applicant who participates alone, but relies on the capacity of one or more other entities (e.g. a parent company or sister company or subcontractor) shall ensure that the application is accompanied by both the applicant's own ESPD and a separate ESPD for each entity on which it wishes to rely, with a completed Part II "Information on the economic operator" and Part III "Grounds for exclusion" as well as relevant information concerning Part IV "Selection criteria" and Part V: "Limiting the number of qualified applicants". The attached ESPD from those other entities should be duly completed and signed. In addition, the submission of final evidence must also be accompanied by evidence of the commitment of these entities/subcontractors in this respect in the form of a statement of support. - Where groups of economic operators, including temporary associations, apply together, a full ESPD shall be filled in separately for each participating economic operator containing the required information. The final documentation must also be accompanied by a Consortium Declaration, by which the parties declare to be a consortium or other form of association jointly and severally, unconditionally, and directly liable for the fulfilment of the contract tendered.

5.1.9. Kryteria kwalifikacji

Źródła kryteriów wyboru: Uwaga

Kryterium: Wskaźnik finansowy

Opis kryterium selekcji: The Contracting Authority's requirements to and assessment of the applicant's suitability are described in the following sections. 2.2.1 Economic and financial standing The applicant must confirm the economic ability in the ESPD part IV.B with information from the latest annual report regarding the following economic indicators: 1. Equity (total equity incl. share capital, reserves, revaluation, retained earning etc.) 2. Equity ratio (equity/total assets). This must be stated with two decimals. If the applicant relies on the capacities of other entities or the applicant is a group of economic operators, the information for the ESPD part IV.B must also be given in a separate ESPD from each of these entities. It is the sole responsibility of the applicant to secure that the minimum requirements are reached, based on consolidation, when the applicant is relying on the capacity of other entities or when the applicant is a group of economic operators. Minimum requirement: Equity from the latest annual report must, at the time of prequalification, be at least 2,000,000 EUR. Equity ratio from the latest annual report must, at the time of prequalification, be at least 20 pct. If the equity ratio is between 15 pct. and 20 pct. the applicant can qualify if Equity exceeds 6,000,000 EUR. Turnover from the latest annual report must, at the time of prequalification, be at least 10,000,000 EUR

Kryteria zostaną wykorzystane do kwalifikacji kandydatów zapraszanych do drugiego etapu procedury

Kryterium: Referencje dotyczące określonych prac

Opis kryterium selekcji: The suitability of applicants fulfilling the minimum requirements for economic and financial standing will be assessed based on technical and professional ability. The ability will be assessed based on references which can be filled in ESPD part IV.C. 2.3 The applicant is allowed to submit up to 3 most comparable and relevant references undertaken in the past 7 years as part of the application. "Undertaken in the past 7 years" implies that the reference must not have been completed prior to the date reached when counting 7 years backwards from the submission date for prequalification. References older than this will not be taken into consideration. References which have not yet been fully completed can be included as part of the application, however the applicant must describe the parts which have not yet been delivered, and this may affect the evaluation of the application, cf. section 2.3. The references should describe HDD drilling experience, and include: • A specific description of deliveries, including: - Length, diameter, width and depth of drilling - Types of crossings - Drilling system - Handling of frack outs - Incidents concerning HSE - Applicant's concrete role in the (main/subcontractor) • Contract value (if possible) • Location • Date of initiation and final delivery (day, month, year) Any ambiguities and/or incomprehensibilities may have a negative effect on the selection of applicants. Please note the "description" box in ESPD part IV.C. can contain more text than is visible and it is possible to copy paste text into the box. If the applicant is relying on the capacity of other entities or the applicant is a group of economic operators, the maximum number of references to be submitted must still be respected and cannot exceed 3 when combined. If more are submitted, the Contracting Authority will only consider the most recent references determined by date of final delivery, in this case not yet finished references will not be included. If the applicant relies on other entities' capacity or is part of a group of economic operators, the information concerning ESPD part IV.C must be submitted in separate ESPDs for each entity. Minimum requirement: The applicant must have at least one reference with HDD landfall drilling, that meets the following requirements: - Undertaken within the past 7 years - Contract value of at least 5.000.000 EUR

Opis: Technical and Organizational Solution As a basis for the Contracting Authority's evaluation of Technical and Organizational Solution, the tenderer should submit a conceptual design and methodology describing the proposed execution of the Works. The submission should demonstrate the technical feasibility of the proposed solution and the Tenderer's understanding of the project conditions. The submission shall include: • Overall methodology, construction approach and site layout (onshore and offshore), including key interfaces and work sequencing • HDD design concept, including alignment, entry/exit points, preliminary geotechnical considerations and drilling methodology • Duct system design, materials, installation methods and key equipment, including handling and installation principles • Environmental mitigation measures, including specific measures to prevent and manage loss of drilling fluids, as well as survey concept and approach to control and verification of the installed works • Assessment of the methodology under the expected metocean conditions. • Survey and control concept, including methodology for setting out, tracking and monitoring during drilling operations and approach to verification of the installed alignment and duct system • The Tenderer shall identify and assess key risks related to the proposed solution and describe how such risks are avoided, reduced or managed. • CV for key personnel: A. Project Manager B. Site Manager C. Drilling Supervisor D. Marine Supervisor • Project Management Concept • Quality Management Concept The Technical Solution will be evaluated on the basis of the credibility, feasibility and level of detail of the submitted conceptual design and methodology. Emphasis will be placed on: • Demonstrated understanding of project conditions, constraints and key risks • Feasibility, robustness and efficiency of the proposed construction and installation methods • Technical soundness of the HDD design and duct system solution • Effectiveness of environmental mitigation measures, including management of drilling fluid losses • Adequacy of the proposed survey, control and verification approach • Solutions demonstrating practical, well-structured and clearly described methodologies, with a focus on HSE risk reduction and safe execution, will be considered favorable. • A robust vessel set up for the offshore activities, including information on backup vessels and operational weather limitations for each vessel, will be considered favorable. • Positive consideration will be given to key personnel demonstrating relevant experience from projects of a similar nature, size, complexity, and risk profile to the Contract, as well as a proven track record of successful project delivery, including performance in relation to time, quality, safety, and stakeholder management. • Positive consideration will be given to proposals demonstrating a clear, robust, and project-specific approach to project management, including effective management of risks, schedule, resources, interfaces, and stakeholder engagement, as well as proactive measures to ensure efficient and timely project execution. • Positive consideration will be given to proposals demonstrating a systematic, robust, and project-specific approach to quality management, including the prevention of non-conformities, effective control of critical activities, efficient management of deviations and corrective actions, and measures ensuring consistent and documented quality throughout the execution of the Contract. An overall evaluation will be made of this sub-criterion. For the sub-criteria "Technical Solution" it is a minimum requirement that the tenderer reach a minimum score of 4 for the tender to be compliant. Not reaching this score either in connection with shortlisting, cf. section 3.9, or in connection with the tender evaluation (an evaluation leading to the award of the contract) will result in the tender being excluded from the competition.

Opis: Time Schedule As a basis for the Contracting Authority's evaluation of Time Schedule, the tenderers are asked to submit the following: • Identification of main milestones (e.g. design completion, start drilling, pilot hole, reaming, pull-back, completion) • Proposed timeline for achieving these milestones within the time frame of the contract • Consideration of required approvals, permits and hold points • Detailed schedule for engineering activities • Detailed schedule on deliverables and documentation • Detailed planning for site setup and maintenance • Detailed planning concept for all required activities needed to complete the HDD operations • Demonstration of continuous and efficient work sequence (minimizing downtime) • Clear distinction between onshore and offshore activities • Assessed weather downtime and standby • Contingencies shall be added and be visible in the time schedule

Tenderer to submit a detailed time schedule that demonstrate the following information: The time schedule shall comprise of a GANTT-style time schedule in pdf and Microsoft Project format, as well as be accompanied with a pdf document describing the overall planning and logic behind the submitted time schedule, including the key phases from engineering to completion. It shall furthermore describe critical path and key dependencies. The following is evaluated positively:

1. Overall schedule structure and logic Degree to which the tenderer presents a clear, coherent and well-structured overall time schedule, including logical sequencing of activities from engineering to completion, well-defined milestones and a transparent critical path with key dependencies.
2. Feasibility and realism of timeline Degree to which the proposed timeline for achieving key milestones is realistic and feasible, taking into account the scope, complexity and constraints of the HDD works, including appropriate allocation of time for all main activities.
3. Planning of activities and resource coordination Degree to which the tenderer demonstrates detailed and well-coordinated planning of engineering, deliverables, site setup, HDD execution and related activities, including clear distinction and alignment between onshore and off shore works.
4. Risk consideration to the time schedule, contingencies and downtime Degree to which the time schedule reflects a robust approach to risk management, including consideration of required permits and approvals, weather down time, standby periods and clearly identified and adequate contingencies.
5. Efficiency and continuity of execution Degree to which the proposed schedule ensures an efficient and continuous work sequence, minimizing down time and idle periods, and demonstrating effective planning of critical HDD operations such as drilling, reaming and pull-back.

An overall evaluation will be made of this sub-criterion. For the sub-criteria "Time Schedule" it is a minimum requirement that the tenderer reach a minimum score of 4 for the tender to be compliant. Not reaching this score either in connection with shortlisting, cf. section 3.9, or in connection with the tender evaluation (an evaluation leading to the award of the contract) will result in the tender being excluded from the competition.

Sub-Clause 18.3 (Duty to Minimise Delay) 51. Sub-Clause 18.5 (Optional Termination) As part of the tender process some clauses might change from competitive terms to requirements – or other clauses might be added as competitive terms. This shall be fixed before a tender leading to award of the contract. For the sub-criteria "Contract Terms" it is a minimum requirement that the tenderer reach a minimum score of 4 for the tender to be compliant. Not reaching this score either in connection with shortlisting, cf. section 3.9, or in connection with the tender evaluation (an evaluation leading to the award of the contract) will result in the tender being excluded from the competition.

Organ odwoławczy: Danish Complaints Board for Public Procurement

Informacje o terminach odwołania: Pursuant to the Danish Act on the Complaints Board for Public Procurement, the following deadlines apply to the submission of complaints: A complaint regarding non-prequalification must be submitted to the Complaints Board for Public Procurement within 20 calendar days from the day following the contracting authority's dispatch of a notification to the candidates concerned identifying who has been selected, cf. section 171(2) of the Danish Public Procurement Act or section 2(1)(1) of the Act on the Complaints Board for Public Procurement, where the notification is accompanied by a statement of reasons for the decision. In other situations, complaints regarding procurement procedures must be submitted to the Complaints Board for Public Procurement within: 1) 45 calendar days after the contracting authority has published a notice in the Official Journal of the European Union announcing that the contracting authority has concluded a contract. The period is calculated from the day following the day on which the notice was published. 2) 30 calendar days calculated from the day following the day on which the contracting authority has

notified the tenderers concerned that a contract based on a framework agreement with reopening of competition or a dynamic purchasing system has been concluded, where the notification was accompanied by a statement of reasons for the decision. 3) six months after the contracting authority has concluded a framework agreement, calculated from the day following the day on which the contracting authority has notified the candidates and tenderers concerned, cf. section 2(2) of the Act on the Complaints Board for Public Procurement or section 171(4) of the Danish Public Procurement Act. 4) 20 calendar days calculated from the day following the day on which the contracting authority has announced its decision, cf. section 185(2) of the Danish Public Procurement Act. No later than at the time of submitting a complaint to the Complaints Board for Public Procurement, the complainant must notify the contracting authority in writing that a complaint is being submitted to the Complaints Board for Public Procurement, and whether the complaint has been submitted during the standstill period, cf. section 6(4) of the Act on the Complaints Board for Public Procurement. Where the complaint has not been submitted during the standstill period, the complainant must also state whether suspensive effect of the complaint is requested, cf. section 12(1) of the Act on the Complaints Board for Public Procurement.
