Tytuł: Tender for a contract on the production of Danish banknotes, new series

Opis: Danmarks Nationalbank is the central bank of Denmark and is an independent, self-governing institution established by law. In a strategic move announced during a press conference on November 30. 2023, Danmarks Nationalbank revealed its initiatives to ensure that cash remains a safe and efficient means of payment in the future. Recognizing the enduring importance of cash transactions, efforts are being made to enhance the safety and efficiency of banknotes, aligning them with technological advancements. The contracting authority is set to issue a new banknote series, anticipated that the first two (2) denominations are delivered in 2028 and the two (2) remaining denominations are delivered i 2029. All banknote series, except the current 2009 and 2009A series featuring bridges and artifacts, have been rendered invalid after May 31. 2025. Notably, the upcoming series will exclude a 1000-kroner note, and the existing 1000-kroner note have ceased to be valid currency in Denmark after May 31. 2025. For the first time since the closing of the printworks, the contracting authority has collaborated with an external security printer to craft the new banknotes. The new banknote series will consist of 4 denominations (50-, 100-, 200- and 500-krone). Despite this external partnership, we have been deeply involved in the design process, guaranteeing the preservation of Danish design traditions and cultural nuances in the appearance of the new banknotes. With this procurement, the contracting authority anticipates entering into a contract with a security printer mid-2026. As stated in Appendix 1 (Specifications) the contracting authority will submit complete and approved design for all the four (4) denominations that will be subject for production during the contract. Minor adjustments to the design will be needed as further decribed in Appendix 1 (Specifications). The material that the contracting authority will submit will consist of: • Completed banknote series design • Origination files • Proof prints • Design layout compendium with detailed specifications The contracting authority will invite all the prequalified Tenderers to a joined presentation and inspection of the new banknote series design. All prequalified Tenderer shall enter into a NDA before the meeting

All communication in connection with the tender procedure, including questions and answers, must take place through the electronic tendering system. Reference is made to the tender specifications and appendix B for information concerning questions and answers. Interested operators are requested to keep updated via the electronic tendering system. As its application, the candidate must submit an ESPD as preliminary documentation of the circumstances set out in section 148(1), paras (1)-(3) of the Danish Public Procurement Act (udbudsløven). It is not necessary for the candidate to sign the ESPD document. For groups of operators (e.g. a consortium), a separate ESPD must be submitted for each participating operator. Where the candidate is a group of operators, the ESPD document of each participant in the group must be signed by the participant in question. The candidate heading the group and submitting the application is not required to sign its ESPD document. If the candidate relies on the capacities of other entities, an ESPD must be submitted for and signed by each of the entities on which it relies. It should be noted that the amount is an estimate of the expected contract price for the entire term of the contract, including the price of all options. The estimate is based on expected future need for banknotes. It should be noted that each candidate may only submit one application for prequalification. The contracting entity may use the procedure of section 159(5) of the Danish Public Procurement Act in the event that applications or tenders do not

comply with the formal requirements of the tender documents. Attention is drawn to Article 5k in Regulation (EU) No 833/2014, as amended, which applies to the tender procedure. The provision contains a prohibition against award of contracts to Russian companies and Russian-controlled companies etc. (reference is made to Article 5k, section 1, for the precise definition of the operators that are subject to the prohibition). The contracting entity reserves the right to require at any time during the tender process that the economic operators prove that they are not subject to the prohibition, for example by requiring a declaration to this effect and/or documentation regarding the place of establishment and ownership of the economic operators and any subcontractors. It should be noted that the indicated term of the agreement will commence on signature of the contract. In addition to the indicated duration of contract, an expiry phase that is flexible in time will be required when the contract is at an end in order to ensure an undisturbed continuation of production of banknotes in connection with a possible re-tender. A site visit to carry out inspection of the prototype of the four denominations of banknotes included in the tender will be possible. The site visit will take place on Wednesday 8 April, 2026, between 9.00-12.00 CET at Langelinie Allé 47, 2100 Copenhagen Ø. The site visit will only be open to the five prequalified tenderers, and after signing an NDA (Appendix D).
