Título: Management Support for the Danida Green Business Partnership Programme

Descrição: The Ministry of foreign Affairs, Green Diplomacy and Climate (KLIMA) wishes to engage a Management Support Consultant (Consultant) to ensure implementation and completion of all the ongoing Danida Green Business Partnerships (DGBP) activities based on sound project and financial management support. The objective of the Consultant is to assume the functions of project implementation support, financial management support and programme level monitoring and reporting. The Client will maintain oversight over the Services performed by the Consultant and the strategic leadership of DGBP. The Consultant shall perform at least the following activities and services: • Manage and implement all the DGBP activities effectively in accordance with the agreed partnership project agreements and contracts. • Provide relevant business and project management support and guidance to actors supported under the instruments. • Provide for achievement of results as defined in the Results Framework in the project document of the instrument. This includes monitoring the DGBP activities effectively. • Provide overall financial management including verification and approval of project workplans, budgets, and reports as well as disbursement requests from the partners. This should be done in accordance with the DGBP financial guidelines and sound financial management principles. • Maintaining full compliance with MFA's Aid Management Guidelines (AMG) and Financial Management Guidelines (FMG), and ensuring high standards of financial management, procurement, anti-corruption, and risk mitigation. • On request provide relevant information on concrete projects and communication material in Danish and highlight positive lessons learned. Ensure sharing of relevant knowledge and information that generate interest and effective participation in the instruments. The DGBP is a programme that funds and supports market-based partnership projects between commercial and non-commercial partners in developing countries addressing climate and environmental challenges while contributing to inclusive growth and improved livelihoods. Each partnership project consists of at least one commercial partner and one non-commercial partner. A DGBP project has its own results framework and contributes to the overall objectives of the programme by linking to specific indicators in the overall results framework. The objective of DGBP is to enhance global green transition and private-led inclusive economic growth through innovative partnerships. DGBP aims at contributing to two outcomes: 1) Reduced vulnerability to climate

change, reduced strain on natural resources and the environment and stabilization of GHG emissions, and 2) inclusive private sector growth and improved livelihoods. The climate and environmental outcomes are estimated in terms of avoided negative effects on the climate and environment compared to status quo solutions. Income and livelihood effects are assessed from the number of people engaged in the activities and the level of targeting products and services towards underserved populations. There are two funding windows in the programme: Full projects of up to DKK 15 million (minimum DKK 4 million) and maturation projects of up to DKK 1.5 million (minimum DKK 0.8 million). Maturation projects can last up to 18 months, while a full project can last up to five years. DGBP was launched in 2022 as a four-year programme (2022-2025) and was open for applications from 2022-2025, meaning that the last commitments were given in 2025 and that the programme is now closed to new applications. However, many of the funded projects will continue implementation during the coming years and the last one is expected to be closed only during 2030. The fund has been administered by an external Management Support Consultant (MSC), which has been responsible for organising annual calls for applications and undertake activities to spur interest in Denmark and in the partner countries in close coordination with the Danish embassies and other relevant stakeholders. The administrative responsibility in each partnership project rests with the non-commercial partner(s), who will also be responsible for annual progress reporting, financial reporting and audits. A programme-level progress report is prepared annually by the MSC. The MSC is providing advice and instructions to the administrative partners in relation to budgeting, reporting and audits, but the funds are disbursed directly to the administrative partners from the Ministry of Foreign Affairs ("MFA" or the "Client") in agreed instalments. Virtual annual monitoring meetings with all partners are organised by the MSC on the basis of the annual reporting. The annual meetings, which take place during March/April, are an opportunity to revise plans and targets in view of the progress achieved and the development in the context. The contract with the current MSC expires at the end of September 2026. Therefore, a new MSC contract for management of the ongoing DGBP projects until their completion is needed from 1st October 2026. The Services are expected to be carried out in Denmark, as regularly physical meetings with the MFA are required. It is expected that there will be 29 DGBP full projects under implementation by October 2026 and 1 DGBP full project, which has completed implementation and is in the closing phase. In addition to the one full project in the closing phase, 4-5 DGBP maturation projects are expected to be in the closing phase by October 2026.

Principais características do processo: Access to the procurement procedure requires online registration. Guidance (in Danish and English) on the use of the tendering system can be found at: <https://mercell.atlassian.net/servicedesk/customer/portal/3/article/177996038?src=1869524006> Economic operators may only submit one application (request to Participate) or tender. Economic operators must submit a European Single Procurement Document (ESPD) as preliminary evidence, that the economic operator is not subject to exclusion grounds and that the economic operator fulfils the requirements for economic and financial standing and technical and professional ability. When the economic operator is participating together with others or if the economic operator relies on the capacity of other entities, each participating economic operator must provide a separate ESPD. In Part III.A-C of the ESPD, economic operators must answer whether they are subject to exclusion grounds, listed in section 2.1.6 of this contract notice. An economic operator is not required to answer whether it is subject to purely national exclusion grounds, cf. Part III.D of the ESPD. The contracting

authority has a maximum budget of DKK 9,500,000 net of VAT, including DKK 1,500,000 for travel expenses (lumpsum) in relation to the procurement. Tenders will be rejected if they exceed the contracting authority's maximum budget. Economic operators will not receive remuneration for their participation in the procedure.

2.1.4. Informações gerais

Informações adicionais: In the tender, economic operators must submit a completed and signed statement regarding Article 5k(1) of Council Regulation (EU) No 833/2014 of 31 July 2014 concerning restrictive measures in view of Russia's actions destabilising the situation in Ukraine, as amended by Council Regulation (EU) No 2023/1214 of 23 June 2023. The contract cannot be awarded to a tenderer subject to Article 5k(1) of Council Regulation (EU) No 833/2014 of 31 July 2014, as amended by Council Regulation (EU) No 2023/1214 of 23 June 2023 Before the time limit for receipt of tenders, the candidates, which the contracting authority has invited to tender, must present documentation of the information provided in the ESPD. The contracting authority can accept the following documentation in relation to the exclusion grounds in sections 135(1), 135(3) and 137(1)(2) of the Danish Public Procurement Act (in order of priority): (1) Extracts from the relevant register or similar documents issued by a competent judicial or administrative authority or certificates issued by the competent authority in the country referred to as documentation that the tenderer is not subject to the grounds for exclusion stipulated in sections 135(1), 135(3) and 137(1)(2); (2) A declaration on oath (only if such extracts, certificates or similar documents are not issued in the country where the economic operator is established, or where the documentation does not cover all the grounds for exclusion stipulated in sections 135(1), 135(3) and 137(1)(2) entirely); (3) A solemn declaration made by the person concerned before a competent judicial or administrative authority, a notary or a competent professional or trade body, in the country of origin or in the country where the economic operator is established (only if there is no provision for declarations on oath in the country where the economic operator is established). Thus, the contracting authority cannot accept e.g. a solemn declaration made before a notary if there can be issued a certificate by the competent authority in the country where the economic operator is established. Moreover, the contracting authority cannot accept self-declarations or similar declarations issued by the economic operator or the person concerned as documentation in relation to the exclusion grounds. Economic operators can identify the relevant documentation using the online platform e-Certis: <https://ec.europa.eu/tools/ecertis> If an economic operator is entered on an official list of approved economic operators or has an equivalent certificate (e.g. under a national (pre)qualification system), the economic operator

may refer to the list in question or present a certificate issued by the competent authority instead of documentation of the information provided in the ESPD. When an economic operator is participating in the procurement procedure together with others, the economic operator must present a joint statement from all the participating economic operators which identifies the member of the group who can act as an agent on behalf of the group with mandate to establish a legal obligation on behalf of the group in relation to the contracting authority. Economic operators are encouraged to submit all necessary documentation as early as possible. Prior to the signing of the contract, the tenderer, which the contracting authority has awarded the contract to, must present statements of availability from all non-permanent staff (e.g. project specific consultants or freelance consultants). This contract has not been divided into lots, cf. section II.1.6), due to minimization of administration as well as market and economic considerations.

The contract cannot be awarded to a tenderer subject to Article 5k(1) of Council Regulation (EU) No 833/2014 of 31 July 2014, as amended by Council Regulation (EU) No 2023/1214 of 23 June 2023 Before the time limit for receipt of tenders, the candidates, which the contracting authority has invited to tender, must present documentation of the information provided in the ESPD. The contracting authority can accept the following documentation in relation to the exclusion grounds in sections 135(1), 135(3) and 137(1)(2) of the Danish Public Procurement Act (in order of priority): (1) Extracts from the relevant register or similar documents issued by a competent judicial or administrative authority or certificates issued by the competent authority in the country referred to as documentation that the tenderer is not subject to the grounds for exclusion stipulated in sections 135(1), 135(3) and 137(1)(2); (2) A declaration on oath (only if such extracts, certificates or similar documents are not issued in the country where the economic operator is established, or where the documentation does not cover all the grounds for exclusion stipulated in sections 135(1), 135(3) and 137(1)(2) entirely); (3) A solemn declaration made by the person concerned before a competent judicial or administrative authority, a notary or a competent professional or trade body, in the country of origin or in the country where the economic operator is established (only if there is no provision for declarations on oath in the country where the economic operator is established). Thus, the contracting authority cannot accept e.g. a solemn declaration made before a notary if there can be issued a certificate by the competent authority in the country where the economic operator is established. Moreover, the contracting authority cannot accept self-declarations or similar declarations issued by the economic operator or the person concerned as documentation in relation to the exclusion grounds. Economic operators can identify the relevant documentation using the online platform e-Certis: <https://ec.europa.eu/tools/ecertis> If an economic operator is entered on an official list of approved economic operators or has an equivalent certificate (e.g. under a national (pre)qualification system), the economic operator may refer to the list in question or present a certificate issued by the competent authority instead of documentation of the information provided in the ESPD. When an economic operator is participating in the procurement procedure together with others, the economic operator must present a joint statement from all the participating economic operators which identifies the member of the group who can act as an agent on behalf of the group with mandate to establish a legal obligation on behalf of the group in relation to the contracting authority. Economic operators are encouraged to submit all necessary documentation as early as possible. Prior to the signing of the contract, the tenderer, which the contracting authority has awarded the contract to, must present statements of availability from all non-permanent staff (e.g. project specific consultants or freelance consultants). This contract has not been divided into lots, cf. section II.1.6), due to minimization of administration as well as market and economic considerations.

5.1.9. Critérios de seleção

Fontes dos critérios de seleção: Documento europeu único de contratação pública (DEUCP), Documento do concurso, Anúncio

Critério: Faturamento médio anual

Descrição do critério de seleção: The economic operator is required to have an average yearly turnover of minimum DKK 10,000,000 for the last 2 financial years available (where the economic operator can present annual reports). When the economic operator is participating

in the procurement procedure together with others (e.g. a consortia or joint venture) or if the economic operator relies on the capacity of other entities, it is required that the participating economic operators or the economic operator and the entities referred to altogether meet the selection criteria. Each involved economic operator or entity must submit a completed ESPD and the participating economic operators or the entities referred to are subject to joint and several liability for the performance of the contract. The contracting authority can accept annual reports or excerpts hereof or relevant statements from a bank or certified accountant as documentation in relation to the economic and financial standing. When an economic operator is participating in the procurement procedure together with others or when an economic operator relies on the economic and financial standing of other entities, the economic operator must also provide statements of support or other documentation proving that the economic operator has access to the necessary economic and financial standing. The statements of support must establish a legal obligation for the party concerned and state that the involved economic operators or entities are subject to joint and several liability for the performance of the contract.

Critério: Referências sobre serviços especificados

Descrição do critério de seleção: The economic operator is required to have performed (entered into, ongoing or finalized) minimum 2 contracts within the field of management of a development fund supporting private sector and business-oriented partnerships in developing countries or emerging markets within the last 3 years. When the economic operator is participating in the procurement procedure together with others (e.g. a consortia or joint venture) or if the economic operator relies on the capacity of other entities, it is required that the participating economic operators or the economic operator and the entities referred to altogether meet the selection criteria, that each involved economic operator or entity submits a completed ESPD and that the specific parts of the contract must be performed by the economic operators or entities with the required technical and professional abilities. The economic operator must fill in a list of maximum 5 contracts (i.e. from all involved economic operators in a group of economic operators and/or other supporting entities). If an economic operator has listed more than 5 contracts, the contracting authority will only read and assess the 5 most recent contracts listed (first based on end date, and then based on start date). Each listed contract should include the following information: (1) a description of the contract (nature and quantity of services from the economic operator and how they compare to the description of this procurement), (2) amount (remuneration received by the economic operator for the performance of the services), (3) start date (date of conclusion of the contract), (4) end date (date of completion of services), and (5) recipient (name and contact information). The contracting authority reserves the right to contact the recipients of services or require statements from the recipients, confirming that the economic operator has performed the listed contracts, as documentation in relation to the technical and professional ability. When an economic operator is formed by a group of economic operators or relies on the technical and professional abilities of other entities, the economic operator must also provide statements of support or other documentation proving that the economic operator has access to the necessary technical and professional abilities. The statements of support must establish a legal obligation for the party concerned and state the parts of the contract to be performed by the party concerned.

Critério: Referências sobre serviços especificados

Descrição do critério de seleção: If more than 5 economic operators fulfil the minimum requirements to economic and financial standing and technical and professional ability, the candidates will be selected on the basis of the information concerning technical and

professional ability. In the selection, the contracting authority will specifically emphasise: (1) The number of relevant contracts (i.e., contracts that fulfil the minimum requirement to technical and professional ability); (2) The extent to which the performed contracts compare to the description of this procurement, to be understood as management of long-lasting multi-partner activities; (3) The extent to which the contracts are performed for clients comparable to the Ministry of Foreign Affairs of Denmark (e.g. a European institution/agency or international organisation, a Ministry or any other national or federal authority, including their regional or local subdivisions, or a national or federal agency/office).
