Título: Pipeline system Bottle stream - Prequalification

Descrição: Nesodden municipality would like to establish water and sewage for residences and cabins in Flaskebekkveien, Vardeveien, Øvreveien, Nordveien, Kavringstrandveien, Strandpromenaden, Sjøstrandkroken and renovation of a water pipeline in Vardebakken with blocking out. The assignment is for the establishment of approx. 4,230 m water, waste water and surface water on existing roads. This involves the extraction of masses for the establishment of water and sewage ditches, as it has not already been established in the area. The ditches shall mainly be 1.7 m deep, but at some stretches/points it is deeper, down to 4 m. The rock is hard and there are a lot of mountains in the open air, so blasting and pigging are expected in large parts of the area. Controlled drilling will be used in areas with difficult conditions. Parts of the Vardeveien and Flaskebekkveien routes will be carried out drilling in rock due to challenging terrain conditions. The installation will be carried out as shallow ditches, where the water pipeline is insulated to limit blasting of rock. The surface area of the water pipeline will be approx. 1 m with depth to the bottom rock trenches of approx. 1.7 m. Parts of the stretch for Flaskebekkveien will be carried out with drilling. The manhole group at K20 (start and reception pit) Depth here will be approx. 5.5 m. This blasting must be carried out in several stages. This is the prequalification of the competition.

Tipo de procedimento: Por negociação com publicação prévia de um convite à apresentação de propostas/concurso com negociação

O procedimento é acelerado: não

Principais características do processo: The competition will be held in accordance with the Act from 17 June 2016 no. 73 on public procurements (LOA) and the regulations on procurement rules in the supply sector of 12 August 2016 no. 975 (the utilities regulations) parts I and II as well as the provisions in this document. x The competition will be held as a negotiated procedure in accordance with the utilities regulations § 9-1. The competition will be divided into two phases, one qualification phase and one tender phase. All interested suppliers can use this procedure to submit a request to participate in the competition. When fulfilment of the requirements in accordance with chapter 4, tenderers will be chosen based on the criteria stated in chapter 5. A selection will be made, 3 to 5 tenderers will be invited to submit a tender.

Further information on the prequalification can be found in chapter 5 in the competition description and more on negotiations in chapter 7. All invited tenderers will have their tenders evaluated. Following the negotiations, for one or several rounds and any updated tenders, the final evaluation of the tenders will be made and the contract will be awarded. The contracting authority reserves the right to evaluate and award contracts without negotiations, if the contracting authority receives satisfactory tenders prior to negotiations. Tenderers are encouraged to submit their best tenders at the first tender deadline, as the contracting authority does not have an obligation to carry out negotiations if the contracting authority receives satisfactory tender offers.
