

Reino Unido-Bristol: Sistema de administração de doentes

OJ S 242/2019 16/12/2019

Anúncio voluntário de transparência ex ante

Fornecimentos

Base jurídica:

Diretiva 2014/24/UE

Secção I: Autoridade/Entidade adjudicante

I.1. Nome e endereços

Nome oficial: North Bristol NHS Trust

Número de registo nacional: RVJ

Endereço postal: Trust Headquarters, Southmead Hospital, Southmead Road

Localidade: Bristol

Código NUTS: UKK11 Bristol, City of

Código postal: BS10 5NB

País: Reino Unido

Pessoa de contacto: BWPC Robert Walker

Correio eletrónico: robert.walker@uhbristol.nhs.uk

Telefone: +44 1173429405

Endereço(s) Internet:

Endereço principal: <https://www.nbt.nhs.uk/bristol-weston-nhs-purchasing-consortium>

I.4. Tipo de autoridade adjudicante

Organismo de direito público

I.5. Atividade principal

Saúde

Secção II: Objeto

II.1. Quantidade ou âmbito do concurso

II.1.1. Título

Electronic Patient Record (EPR) Solution

Número de referência: BWPCIT1142

II.1.2. Código CPV principal

48814200 Sistema de administração de doentes

II.1.3. Tipo de contrato

Fornecimentos

II.1.4. Descrição resumida

This contract is for the provision of an integrated enterprise-wide Electronic Patient Record (EPR) solution.

The solution is required to meet all aspects of patient administration including but not limited to patient registration, in-patient care, waiting lists, out-patients, coding in all statutory formats, case note tracking, bed management, clinical data collection and operational and management reporting. Additionally, the solution is required to meet other clinical

requirements comprising order communications, results reporting, electronic prescribing and medicines administration, clinical documentation, nursing documentation and observations. Also, the solution is to include integrated functionality to manage all clinical and administrative aspects of emergency care, provide theatre management functionality and meet maternity patient record needs. As well as requirements for system implementation, hosting and system support.

II.1.6. Informação sobre os lotes

Contrato dividido em lotes: não

II.1.7. Valor total do concurso

Valor sem IVA: 24 600 000,00 GBP

II.2. Descrição

II.2.2. Código(s) CPV adicional(is)

48000000 Pacotes de software e sistemas de informação, 48180000 Pacote de software para medicina, 48814000 Sistemas de informação médica, 48814400 Sistema de informação clínica , 72253000 Serviços de apoio e de help-desk

II.2.3. Local de execução

Código NUTS: UKK11 Bristol, City of

II.2.4. Descrição do concurso

This contract is for the provision of an integrated enterprise-wide Electronic Patient Record (EPR) solution that meets with the BNSSG STP and NHS Digital approved strategy of system convergence across local trusts.

The Trust will procure an Electronic Patient Records (EPR) solution using the Direct Award procedure under 'Lot 1 – Enterprise-wide Electronic Patient Records Systems' of the NHS England Health Systems Support Framework Agreement (the 'Framework Agreement').

The solution is required to meet all aspects of patient administration including but not limited to patient registration, in-patient care, waiting lists, out-patients, coding in all statutory formats, case note tracking, bed management, clinical data collection and operational and management reporting.

Additionally, the solution is required to meet other clinical requirements comprising order communications, results reporting, electronic prescribing and medicines administration, clinical documentation, nursing documentation and observations. Also, the solution is to include integrated functionality to manage all clinical and administrative aspects of emergency care, provide theatre management functionality and meet maternity patient record needs.

In addition, this requirement is for the supply of professional services to project manage and implement the solution and as well as the provision of the relevant software licences this requirement is also for the supply of the associated ongoing system support and maintenance services.

II.2.5. Critérios de adjudicação

II.2.11. Informação sobre as opções

Opções: não

II.2.13. Informação sobre os fundos da União Europeia

O contrato está relacionado com um projeto e/ou programa financiado por fundos da União Europeia: não

II.2.14.

Secção IV: Procedimento

IV.1. Descrição

IV.1.1. Tipo de procedimento

Procedimento por negociação sem publicação prévia

Explicação:

In accordance with the terms of the framework agreement, the justification for making a direct award is as follows:

The Bristol and North Somerset and South Gloucestershire (BNSSG) Sustainability and Transformation Partnerships (STP) long term plan sets out how the region will develop more effective and joined up integration of systems between acute and community providers. This includes the convergence of technical system platforms across acute trusts as outlined in the NBT Digital Vision published in October 2018.

The adoption of the same solution will provide a solid foundation that will enable NBT to collaborate and interoperate with BNNSG Acute providers and share developments in the future. Both University Hospitals Bristol and Weston Area Health Trust are aligned on the System C solution and so to deliver the goals outlined by the NBT Digital Vision and STP LTP, NBT need to also align the platform.

A reduction in the level of divergence leads to the ability for faster flow of information, assessment and clinical decision making where there is cross-Trust patient flow.

The convergence of systems will provide NBT with a pathway to:

- develop a shared infrastructure plan and consolidation of existing infrastructure,
- creating interoperability plans to enhance mobility, remote and flexibility working.

There is considerable clinical traffic between NBT and UHBristol and to improve patient safety and continuity of care it is essential to establish full information flows and cross-patient management between providers at the point of care across BNSSG using the same systems.

Many clinicians work across NBT and UH Bristol and there is a need to reduce the complexities for end users of having to learn and use different systems and a common IT solution will reduce this burden.

The timescales for convergence outlined in the NBT Digital Vision and STP Long Term Plan are rapid and can only be achieved if BNNSG providers work together and reduce the level of system divergence by adopting the same solution across BNSSG and also taking into consideration the level of investment already undertaken by partner organisations.

To be able to establish an integrated EPR solution integration and data sharing factors, technical platform implications, user interface design aspects, bed management issues and the availability of live application program interfaces' (API's) need to be considered.

For example, full 2-integration, via HL7 FHIR messaging standards is required to meet clinical instant messaging application needs. The solution requires full 2-way integration with the clinical observations and assessments solution, including bed moves from within the mobile solution.

Full 2-way integration with the theatres management solution, that shows patient theatre status within the EPR solution in real-time.

Integrated test requests and results with sufficient detail to enable automatic entry into discharge summaries.

Access required to core PAS information across multiple device styles with the ability to search for a patient without navigating multiple system forms first.

Pre-population of forms with previously captured form data, such as last ED episode, with visible source description and bed management application integrated into core PAS.

- As obras, os produtos ou os serviços só podem ser fornecidos por um determinado operador económico, pela seguinte razão:
 - inexistência de concorrência por razões técnicas

IV.1.3. Informação acerca do acordo-quadro

IV.1.8. Informação relativa ao Acordo sobre Contratos Públicos (ACP)

O contrato é abrangido pelo Acordo sobre Contratos Públicos: não

IV.2. Informação administrativa

Secção V: Adjudicação de contrato/concessão

V.2. Adjudicação de contrato/concessão

V.2.1. Data da decisão de adjudicação do contrato

10/12/2019

V.2.2. Informação sobre as propostas

O contrato foi adjudicado a um agrupamento de operadores económicos: não

V.2.3. Nome e endereço do contratante/concessionário

Nome oficial: System C Healthcare Ltd

Número de registo nacional: 1754990

Endereço postal: The Maidstone Studios Vinters Business Park, New Cut Road, Maidstone

Localidade: Kent

Código NUTS: UK United Kingdom

Código postal: ME14 5NZ

País: Reino Unido

O contratante/concessionário será uma PME: não

V.2.4. Informação sobre o valor do contrato/lote/concessão

Valor total do contrato/lote/concessão: 24 600 000,00 GBP

V.2.5. Informação acerca da subcontratação

Contrato/lote/concessão passível de subcontratação

Secção VI: Informação complementar

VI.3. Informação adicional

VI.4. Procedimentos de recurso

VI.4.1. Organismo responsável pelos processos de recurso

Nome oficial: Bristol and Weston Purchasing Consortium

Endereço postal: Level 3, Whitefriars, Lewins Mead

Localidade: Bristol

Código postal: BS1 2NT

País: Reino Unido
