Titlu: CRM and Broadcast

Descriere: This tender presents an opportunity for potential tenderers to bid for the contract regarding Metroselskabets new CRM and Broadcast-solution (the solution). Metroselskabet needs an integrated platform to support the commercial and operational management of its DOOH and OOH advertising business across the Copenhagen Metro. Metroselskabet is in the process of bringing the commercial management of advertising activities across the Copenhagen Metro in-house. These activities have previously been managed externally, and the transition therefore involves establishing the necessary internal organization, processes, systems and capabilities to enable Metroselskabet to take direct responsibility for its advertising business. The procurement of the solution is a key part of this transition. The Solution is expected to provide the technological foundation for Metroselskabet's future advertising operations and support the new organization in managing the advertising value

chain efficiently and consistently from sales through campaign execution and follow-up. The Customer seeks a standard, cloud-based platform that enables Metroselskabet to manage its advertising business from end to end. The Solution is expected to provide the commercial team with the tools needed to manage customers and sales opportunities, prepare quotations, check available advertising inventory, agree on pricing and book campaigns. Once a campaign is sold, the same Solution is expected to support campaign planning, creative handling and approval, scheduling and broadcasting, followed by monitoring of campaign delivery, Proof-of-Play, invoicing-basis and reporting. The Solution is expected to provide a connected workflow between these activities, ensuring that information established during the sales process can be used directly in subsequent planning, execution and reporting without unnecessary re-entry or manual transfer of data.

The participants in the consortium must furthermore complete and sign a consortium declaration, corresponding to the template in the Tender Conditions, whereby the consortium participants assume joint and several and unlimited liability for the performance of the contract if the contract is awarded to the consortium. The applicant is not required to use the template, but since the declaration to be submitted must have the same content as the template, the applicant is encouraged to do so.

APPLICATIONS BASED ON SUPPORTING ENTITIES If the applicant relies on the economic and financial capacity and/or the technical and professional capacity of supporting entities, such as a parent company, a subcontractor or similar, the applicant must indicate this in Part II, Section C of the ESPD. Each of these supporting entities must complete and upload an ESPD as described above. As part of the application for prequalification, the applicant must furthermore upload a signed declaration of support in accordance with article 79, subs. 1 of the Utilities Directive (Directive 2014/25/EU), corresponding to the templates in the Instructions to Tenderers, from each of the supporting entities on which the applicant relies. The applicant is not required to use the template but since the declaration(s) to be submitted must have the same content as the template, the applicant is encouraged to do so.

REJECTION OF APPLICANTS ESTABLISHED IN TAX HAVENS Metroselskabet will exclude applicants established in a country that is included in the EU list of non-cooperative jurisdictions for tax purposes and has not acceded to the WTO's Government Procurement Agreement or other trade agreements that oblige Denmark to open the market for public procurement to applicants established in that country.
