2.1. Postup

Názov: Procurement of an agreement for transport and treatment of benthic ash/slag.

Opis: PURPOSE AND SCOPE The objective of the procurement is to cover the Agency for Sanitation and Recycling's (REG) need for transporting bottom ash from the Haraldrud Waste Incineration Plant (HEA) and its treatment. The bottom box, a residue product of the incineration process, contains magnetic and non-magnetic metals that can be recycled. Bunnasken from Haraldrud Energy Recovery Plant is not defined as hazardous waste. This is production waste that is transported and processed before a final landfill. The bottom ash must be transported from the plant in containers, pre-treated/sorted before a residue fraction of the ash is finally deposited. The agreement shall include transport of bottom ash, including container hire, recycling of metals and depositing residual bottom ash. Tenderers shall be able to offer a system that covers the entire value chain from ranking on the facility to finishing in the most efficient way. The contract period is 2 years from when the contract is signed. The contracting authority has an option for a further 2 (1+1) years on verbatim terms.

5.1.9. Kritériá výberu

Zdroje výberových kritérií: Oznámenie

Kritérium: Registrácia v obchodnom registri

Popis výberového kritéria: The tenderer shall be a legally established company.

Documentation requirements: Norwegian companies: Company Registration Certificate.

Foreign companies: Proof that the company is registered in a trade or business register as prescribed by the law of the country where the company is established.

Kritérium: Iné ekonomické alebo finančné požiadavky

Popis výberového kritéria: Tenderers must have sufficient economic and financial capacity to be able to fulfil the contract. Documentation requirements: The contracting authority will obtain a credit rating itself, which will form the basis for the assessment. If the tenderer feels that the credit rating will not provide an accurate picture, please send supplementary information together with the tender. If a tenderer has a justifiable reason (e.g. newly started company) of not submitting the documentation that the Contracting Authority has required, he can document his economic and financial capacity with any other document that the Contracting Authority deems suitable.

Kritérium: Opatrenia pre environmentálny manažment

Popis výberového kritéria: Tenderers are required to have implemented environmental management measures that ensure that the tenderer is suitable to fulfil the contract's environmental provisions (see contract point 13). This means that the tenderer has methods for working actively and systematically to reduce negative environmental impact from activities connected to the execution of this contract. Documentation requirements: A description of the tenderer's environmental management measures. If a tenderer has certificates from independent bodies that document the environmental management system, they can be presented as documentation. Refer to the EU Scheme for Environmental Management and Environmental Audit (EMAS), other recognised environmental management systems in regulation (EF) no. 1221/2009 article 45, or equivalent, and other environmental management standards based on relevant European or international standards from accredited bodies such as ISO 14001 or equivalent.

Kritérium: Opatrenia na zabezpečenie kvality

Popis výberového kritéria: Tenderers shall have a relevant quality assurance system for the content of the contract. Documentation requirements: A description of the tenderer's quality assurance methods. Alternatively: Certificate for the company's quality assurance system issued by independent bodies that confirms the tenderer fulfils certain quality assurance standards, for example ISO 9001:2015.

Kritérium: Referencie na špecifikované dodávky

Popis výberového kritéria: Tenderers shall have experience from equivalent or similar assignments. By equivalent assignments, we mean transport of waste Documentation requirements: Short description of the most important deliveries in the last three years, including information on the contract's value, date of delivery as well as the name of the contracting authority and a description of the assignment's content. See annex 4 - template for reference assignments.

Kategória kritéria na vyhodnotenie ponúk hmotnosť: Váha (percentá, presne)

Číslo kritéria na vyhodnotenie ponúk: 100

Kritérium:

Typ: Kvalita

Opis: It is follows from the Public Procurement Regulation § 7-9 (4) that the main rule that climate and environmental considerations shall be weighted at least 30% in the award, can be replaced with minimum requirements for climate and the environment, where as it is clear that it provides a better climate and environmental effect. Transport and fuel technology for this, is what affects the climate and environment in the relevant procurement. The contracting authority has considered that it would give a better climate and environmental effect to set minimum requirements for tenderers to use zero emission vehicles, than it would have been to weight climate and environment 30%, and the main rule in FOA § 7-9 other paragraphs can be waived.
