Nemecko – Priemyselné diamanty – High Pressure High Temperature (HPHT) Diamonds

OJ S 54/2026 18/03/2026

Oznámenie o vyhlásení verejného obstarávania alebo oznámenie o koncesii – štandardný režim

Tovary

1. Kupujúci

1.1. Kupujúci

Úradný názov: European X-Ray Free-Electron Laser Facility GmbH

E-mail: tender@xfel.eu

Typ kupujúceho podľa právnych predpisov: Organizácia, ktorá zadáva zákazku subvencovanú verejným obstarávateľom

Činnosť verejného obstarávateľa: Vzdelávanie

2. Postup

2.1. Postup

Názov: High Pressure High Temperature (HPHT) Diamonds

Opis: This tender is adopted with Innovation Partnership Procedure which is a specific procurement method established under EU public procurement law (Directive 2014/24/EU), allowing public contracting authorities/companies to procure R&D services and the subsequent purchase of resulting innovative products, services or works in one integrated process. It is particularly useful when products or solutions do not exist on the market. The high-quality HPHT diamonds themselves are not inherently innovative. However, due to the current political situation, there is a lack of an established supply chain within Europe. The innovation in this case lies not in the material, but in its use: EuXFEL is pursuing the development of a prototype Diamond Double-Crystal Monochromator (Diamond DCM) using HPHT diamond, which provides significantly better thermal conductivity and quality than available CVD diamonds. Although silicon-based DCMs are already commercially available, diamond-based equivalents have not yet reached the market. Single Procedure: Combines R&D and subsequent commercial procurement, avoiding the need for a separate tender once the innovation is developed.

Identifikátor postupu: 881cfa1c-db41-47e9-983f-f323f2f52d4c

Druh postupu: Inovatívne partnerstvo

2.1.1. Účel

Druh zmluvy: Tovary

Hlavná klasifikácia (cpv): 14522200 Priemyselné diamanty

2.1.2. Miesto plnenia

Nižšia územná jednotka krajiny (NUTS): Pinneberg (DEF09)

Krajina: Nemecko

2.1.4. Všeobecné informácie

Právny základ:

Smernica 2014/24/EÚ

vgv -

2.1.6. Dôvody na vylúčenie

Zdroje dôvodov na vylúčenie: Súťažný podklad

5. Časť

5.1. Časť: LOT-0001

Názov: High Pressure High Temperature Diamonds

Opis: Phase 0 : Call for Competition -Request to participate, stating their understanding of the technical specifications and the expectation from EuXFEL, the expected results, milestone achievements, and the requested achievable timeframe for each phase, as well as agree the overall production plan and estimated timeline at the final phase 4, details as stated in the tender documents (Technical Specification). -Bidders must provide a concise description confirming compliance with the technical specifications including the tolerances, requested project timeline and reporting period/time frame outlined in this document. If any required parameters cannot be met, the contractor must explicitly state so in the offer, along with details of the achievable parameters. -Initial offer must be submitted based on the requirements stated on the "High Pressure High Temperature (HPHT) Diamonds" specification, under 1.2 "Diamond plates specification"- "General Geometrical and Material Specifications", as informational purpose only -Complete & Sign Tender Forms Phase 1: Initial Development and Screening In this phase, maximum five (5) bidders will be selected from Phase 0 must each deliver one (1) diamond plate together with technical report in accordance with the requirements defined below. The delivered plate shall be characterized and submitted for evaluation by EuXFEL. EuXFEL reserves the right to shortlist fewer than five (5) bidders for this stage if one or more bidders do not meet the selection criteria for this phase. Phase 2: Process Optimization The objective of this phase is the optimization of the diamond growth and processing process to achieve a larger defect-free area while minimizing lattice strain. In this phase, the suppliers selected following Phase 1 must each deliver two (2) diamond plates with (100) crystallographic orientation with technical report on the requested timeframe in accordance with the requirements defined below. The delivered plates shall be characterized and submitted for evaluation by EuXFEL. Phase 3: Advanced Development for (110) Orientation The objective of this phase is the development and delivery of a high-quality diamond plate with (110) crystallographic orientation, which represents a more technically demanding configuration compared to the (100) orientation. In this phase, the suppliers selected following Phase 2 shall each deliver one (1) diamond plate in accordance with the requirements defined below. The delivered plate shall be characterized and submitted for evaluation by EuXFEL. If the analysis results of the 3rd crystal plate from any 2 or more than 2 bidders are identical. EuXFEL will request the bidders to submit their offers of the 4th plate of crystals with the final agreed specification at the end of Phase 3 for comparison, instead of at the beginning of Phase 4. Phase 4: Final Supply and Integration of the plates to the monochromator Delivery of two (2) diamond plates (100) oriented and two (2) diamond plates (110) oriented. Only 1 supplier will be selected on Phase 4. The selected bidder must submit the final offer at this phase. The price quoted on the final offer must be in Euro fix, not subject to escalation or variation. The price must include design, probing & testing, classification if applicable, technical report, delivery to the premises of EuXFEL and include all labeling, packaging and insurance as well as factory acceptance tests (FAT), but exclude Value Added Tax (VAT) as well as customs duties. By submitting the final offer, the terms and conditions of this innovation partnership procedure are accepted.

Interný identifikátor: LOT-0001 XRO-CT32310

5.1.1. Účel

Druh zmluvy: Tovary

Hlavná klasifikácia (cpv): 14522200 Priemyselné diamanty

5.1.2. Miesto plnenia

Nižšia územná jednotka krajiny (NUTS): Pinneberg (DEF09)

Krajina: Nemecko

Doplňujúce informácie: None

5.1.3. Predpokladané trvanie

Iné trvanie: Neznámy

5.1.6. Všeobecné informácie

Vyhradená účasť:

Účasť nie je vyhradená.

Projekt verejného obstarávania nie je financovaný z prostriedkov EÚ

Na toto verejné obstarávanie sa vzťahuje Dohoda o vládnom obstarávaní (GPA): nie

Toto verejné obstarávanie je vhodné aj pre malé a stredné podniky (MSP): áno

Doplňujúce informácie: #Besonders auch geeignet für:freelance#, #Besonders auch geeignet für:startup#, #Besonders auch geeignet für:other-sme#, #Besonders auch geeignet für:selbst#

5.1.7. Strategické verejné obstarávanie

Cieľ strategického verejného obstarávania: Inovatívny nákup

Opis: This tender is adopted with Innovation Partnership Procedure which is a specific procurement method established under EU public procurement law (Directive 2014/24/EU), allowing public contracting authorities/companies to procure R&D services and the subsequent purchase of resulting innovative products, services or works in one integrated process. It is particularly useful when products or solutions do not exist on the market. This tender includes Phase 0 to Phase 4. The high-quality HPHT diamonds themselves are not inherently innovative. However, due to the current political situation, there is a lack of an established supply chain within Europe. The innovation in this case lies not in the material, but in its use: EuXFEL is pursuing the development of a prototype Artificial Channel-Cut Monochromator (ACCM) using HPHT diamond, which provides significantly better thermal conductivity and quality than available CVD diamonds. Although silicon-based ACCMs are already commercially available, diamond-based equivalents have not yet reached the market. Single Procedure: Combines R&D and subsequent commercial procurement, avoiding the need for a separate tender once the innovation is developed.

Inovačné obstarávanie: Obstarávané stavebné práce, dodávky tovaru alebo služby zahŕňajú činnosti v oblasti výskumu a vývoja.

5.1.9. Kritériá výberu

Zdroje výberových kritérií: Súťažný podklad

Informácie o druhej fáze dvojfázového postupu:

Minimálny počet záujemcov, ktorí budú pozvaní do druhej fázy postupu: 3

Maximálny počet záujemcov, ktorí budú pozvaní do druhej fázy postupu: 5

Postup prebieha v po sebe nasledujúcich fázach. V každej fáze môžu byť niektorí účastníci vylúčení

5.1.10. Kritériá na vyhodnotenie ponúk

Kritérium:

Typ: Kvalita

Opis: Selection criteria for Phase 0: Phase 0 - Selection suitability criteria for invitation for next Phase (Phase 1): A total of 100 points can be achieved when evaluating references.

References (3 References – experience as a company in projects of similar characteristics within the last ten years stated on the Tender Forms) are evaluated by comparing applicants with each other based on the following scale/grading system. The maximum number of points is multiplied by the respective weighting factor (percentage)– multiplied by the respective weighting factor (percentage). - 100% = very good: The applicant meets the requirements for the suitability criterion to the highest degree, - 80% = good: Applicant meets the requirements for the suitability criterion to the highest degree, - 60% = fully satisfactory: The applicant meets the suitability criteria to a high degree to a high degree, - 40% = satisfactory: Applicant meets the requirements for the suitability criterion to a sufficient degree, - 20% = adequate: Applicant meets the requirements for the eligibility criterion to a barely sufficient degree. In the range between 0% and 100%, intermediate values can be formed to take into account a tendency toward the higher grade level (10%, 30%, 50%, 70%, 90%), which be assigned to the respective grade level with the straight percentage below it. An assessment of an aptitude criterion (performance or expertise) with 10% would correspond to a complete failure to meet the respective suitability criterion, which would result in the exclusion of the application for participation (knockout criterion). The above criteria are suitability criteria, not award criteria. EuXFEL aims to select maximum 5 bidders/applicants in Phase 1. If no 3 bidders/applicants are similarly qualified in terms of meeting the minimum requirements or total points, only those applicants who are sufficiently suitable will be included. If several applicants/bidders achieve the same total score and the number of applicants/bidders exceeds the planned number to be invited to the next phase, EuXFEL reserves the right to select among the remaining applicants with the same score by drawing lots. These criteria will be used to determine which applicants will be invited to the next phase of the process.

5.1.11. Súťažné podklady

Jazyky, v ktorých sú súťažné podklady oficiálne k dispozícii: angličtina

Adresa súťažných podkladov: <https://www.subreport.de/E29531557>

5.1.12. Podmienky verejného obstarávania

Podmienky predkladania:

Elektronické predkladanie: Povinná

Adresa na predkladanie: <https://www.subreport.de/E29531557>

Jazyky, v ktorých možno predložiť ponuky alebo žiadosti o účasť: nemčina

Elektronický katalóg: Nie je povolená

Varianty: Nie je povolená

Uchádzači môžu predložiť viac ako jednu ponuku: Nie je povolená

Lehota na prijímanie žiadostí o účasť: 20/04/2026 12:00:00 (UTC+02:00) východoeurópsky čas, stredoeurópsky letný čas

Informácie, ktoré možno doplniť po uplynutí lehoty na predkladanie ponúk:

Podľa uváženia kupujúceho sa môžu všetky chýbajúce dokumenty týkajúce sa uchádzača predložiť neskôr.

Doplňujúce informácie: None

Podmienky zmluvy:

Plnenie zmluvy sa musí vykonať v rámci programov chránených pracovísk: Nie

Elektronická fakturácia: Povolená

Bude sa využívať elektronické objednávanie: áno

Bude sa využívať elektronická platba: áno

5.1.15. Techniky

Rámcová dohoda:

Žiadna rámcová dohoda

Informácie o dynamickom nákupnom systéme:

Žiadny dynamický nákupný systém

5.1.16. Ďalšie informácie, mediácia a preskúmanie

Organizácia pre preskúmanie: Vergabekammer des Bundes beim Bundeskartellamt

Registration number: +49 022894990 Country subdivision (NUTS): Bonn, Kreisfreie Stadt
