5.1.10. Kritériá na vyhodnotenie ponúk

Kritérium:

Typ: Cena

Názov: Price

Opis: Tenderers shall fill in the attached price form for the sub-contracts that the tenderer submits a tender for and submit the price form as an annex to the tender in Excel format. Tenderers shall only fill in cells that are marked for filling in. Tenderers shall not change other cells, formulas, sheet structure or calculation models in the price form. If the tenderer changes formulas, deletes content, makes the price form difficult to check or compare, it can be assessed as a deviation from the tender documentation. Missing completion of price fields, or filling in, which makes it impossible or disproportionately demanding to calculate the evaluation price, can lead to the tender being rejected. All prices shall be stated in NOK excluding VAT and include all costs that shall be included in the evaluation price, including freight/delivery, order/invoice fee and procurement commission where relevant. Costs that the tenderer knows will apply, but which are not particularly priced, will be seen as included in the given prices. Requirements for cost prices, mark-up and documentation of cost prices are stated in point 7.2.12 and the price form. Evaluation: The price will be evaluated separately for each sub-contract. For each sub-contract, the field "Total Sum for evaluation" is used in the price form as a basis for an evaluation of the award criteria Price. The attached evaluation model, hybrid model with break point 1, will be used for evaluating the price. The tenderer's point score for the award criterion Price is weighted with the award criteria's weighting percentage.

Číslo kritéria na vyhodnotenie ponúk: 50

Kritérium:

Typ: Kvalita

Názov: Quality

Opis: Tenderers shall fill in the requirement form for the sub-contracts a tender is submitted for. The requirement form shall be submitted as an annex to the tender in Excel format. Tenderers shall respond to the requirements in the requirement form and enclose documentation when requested. Where a tenderer refers to annexes or other documentation, it shall be clear which annex, which side, which point or part of the documentation supports the response. Tenderers shall not change requirement numbers, requirement text, requirement type, weighting, sheet structure, formulas or other parts of the requirement form that are not meant to be completed. Missing, unclear or inadequate responses can have an impact on the evaluation. If the relationship is for non fulfilment of the minimum requirement, this can lead to rejection Evaluation: The quality will be evaluated, after a procurement assessment, separately for each sub-contract, based on the tenderer's response to the requirement form and associated documentation. The requirement types, internal weighting and evaluation scale are in the tab "Beskrivelse" in the requirement form. Points will be given for each evaluation requirement on a scale from 0 to 10, with 10 being the best. The points will be given after the evaluation scale in the requirement form. Other tenders will be awarded a relative point score based on the best offered system. The contracting authority will assess the qualities, solutions and documentation requirements that are in each requirement. Where a requirement sets a minimum level, the minimum level must be met. Fulfilment, better documented qualities, better suitability for the contracting authority's use or other relevant added value within the relevant requirement can give a higher score. Concrete, relevant and verifiable responses will be given higher than that for general descriptions, standard market material or undocumented claims. Unclear, incomplete or incomplete verifiable responses can result in a lower score. The Contracting Authority calculates Quality Score per role/product and weights them in accordance with the evaluation volumes in the price form. Examples of calculations: Role of The Evaluation Volume Share of Total Volume Quality Score Weighted Quality Score Role 1 1
