Participants have different individual needs, and there will be a large variation in the participant group connected to Norwegian abilities, formal competence, work experience, education level, digital competence, network and social skills, as well as different health challenges. For some participants, these challenges will apply simultaneously and mutually affect each other. If it is deemed appropriate, the measure could also be used for other minority groups with equivalent need for follow-up. For example, Polish, Bulgarian, Romanian and Hungarian citizens. These will not have participated in the introduction program, but will benefit from the initiative's other content directed at a minority group.
