2. Postopek

2.1. Postopek

Naslov: THERESA PCP

Opis: PreCommercial Procurement of innovative and sustainable solutions to Treat HEalthcaRE System wAstewater.

Identifikator postopka: 7daebf3d-9e7f-44b2-bcbc-b3c916ad99e5

Predhodno obvestilo: 720765-2025

Vrsta postopka: Odprti postopek

Postopek je pospešen: ne

Glavne značilnosti postopka: PRE-COMMERCIAL PROCUREMENT THERESA PCP seeks to develop innovative and sustainable technologies for on-site treatment of hospital wastewater that demonstrate high-performance while resulting in environmental added value. This PCP – i. e. a joint cross-border procurement of R&D services – is intended to reinforce public demand-driven innovation. PCP has the potential to be an effective demand-side innovation action and a useful tool to close the gap between supply and demand for innovative solutions. Solutions are expected to achieve TRL 7-9 at the end of Phase 3. The PCP should deliver successful innovative and fully tested product(s) and/or service(s) that meet the common challenge of the PBG to procure R&D and innovative marketable solutions, speed up the time-to-market and provide best value for money. The R&D for THERESA PCP will be split into 3 phases (Phase 1: solution design, Phase 2: prototyping and lab testing, Phase 3: original development, installation, wider field testing and validation of a limited set of 'first' products or services). PCP PHASE 1 – SOLUTION DESIGN: During this phase, the contractors will be asked to present the concept and describe the solution providing the complete architecture and design thereof and present relevant supporting documentation enabling verification of the technical, economic and organisational feasibility of their solution to address the PCP challenge. PCP PHASE 2 – PROTOTYPE DEVELOPMENT: This phase concerns the development of prototypes of the solutions and testing their performance under controlled conditions. Based on the conceptual designs and documentation presented in phase 1, the contractors shall develop a prototype of the solution and perform its testing under laboratory conditions to demonstrate its performance in terms of measurable technical parameters related to the performance of the technology in fulfilling its purpose related to THERESA PCP challenge and environmental parameters related to the environmental aspects or impacts during its operation. During and at the end of phase 2, the PBG will request from the contractors a series of deliverables in order to evaluate their progress, the performed activities and the obtained results, as well as an end of phase report. PCP PHASE 3 – VALIDATION IN REAL OPERATIONAL ENVIRONMENT: This phase will validate the final solutions through independent verification and third-party test data generation to demonstrate their technical/functional and environmental performance achieved under real hospital conditions, using . detailed scenarios and processes developed in the verification and validation strategy. Evaluations by the relevant committee after each phase will progressively identify the solutions that offer the best value for money and meet the customers' needs. This phased approach allows successful contractors to improve their offers for the next phase, based on lessons learnt and feedback from procurers in the previous phase. Tender closing time will be: 31 August 2026, 23:59 CEST (local time in Spain) Following the tendering stage, a Framework Agreement and a Specific Contract for phase 1 will be awarded to at least 5 (five) contractors. If less contractors than 5 (five) will present a bid, the PBG shall motivate a decision to stop or continue the PCP2. A call-off will be organized for phase 2, with the aim of awarding 3 phase 2 contracts. Only offers from contractors that successfully completed phase 1 will be eligible for phase 2. The procurers will

validate the phase 2 prototypes. A second call-off will be organized for phase 3, with the aim of awarding a minimum of 2 phase 3 contracts. Only offers from contractors that successfully completed phase 2 will be eligible for phase 3. Testing of the first products/services is expected to take place in the test sites indicated in Tender Documents - Annex 1. Testing sites during phase 3.

2.1.1. Namen

Vrsta javnega naročila: Storitve

Glavna klasifikacijska oznaka (cpv): 73100000 Storitve na področju raziskav in eksperimentalnega razvoja

Dodatna klasifikacija (cpv): 38434000 Analizatorji, 38430000 Aparati za odkrivanje in analizo, 38434500 Aparati za biokemične analize, 38434560 Aparati za analize v kemiji, 42910000 Aparati za destilacijo, filtriranje ali rektifikacijo, 42912100 Stroji in aparati za filtriranje tekočin, 42912300 Stroji in aparati za filtriranje in čiščenje vode, 42961000 Sistem vodenja in kontrole, 42912310 Aparati za filtriranje vode, 42996000 Stroji za čiščenje odplak, 71620000 Storitve analiz, 71900000 Laboratorijske storitve, 72222300 Storitve informacijske tehnologije, 72227000 Storitve svetovanja na področju integracije programske opreme, 73111000 Storitve raziskovalnih laboratorijev, 90730000 Sledenje in spremljanje onesnaženosti ter rehabilitacija

Država: Poljska

2.1.3. Vrednost

Ocenjena vrednost brez DDV: 2 824 143,04 EUR

2.1.4. Splošne informacije

Dodatne informacije: PCP procurements are exempted from the EU Public Procurement Directives because the procurers do not retain all the benefits of the R&D (the IPR ownership stays with the contractors). They are also exempted from the WTO GPA because this Agreement does not cover R&D services (the PCP being limited to such services and any subsequent PPI relating to commercial scale supply of such solutions not being part of the

PCP). The Tender Documents and other specifications will be available for download on the website: <https://theresa-pcp.eu>. In addition, proposals must be submitted through the Tuttogare procurement platform. The link to this platform is as follows: <https://theresapcp.tuttogare.it/>. Interested bidders who wish to submit their proposals must first register as users on the platform. Furthermore, the THERESA-PCP website will provide a guide on how to use the Tuttogare platform, including instructions for downloading documents and submitting proposals. For any inquiries, questions may be submitted through the Tuttogare platform. They will also find additional information regarding the procedure and the documents to be submitted in each phase, organized according to their intended use in the THERESA - PCP website. For any further inquiries, you are kindly requested to direct your correspondence to the following email addresses: Email: info@theresa-pcp.eu Email: unidad.innovacion.salud@navarra.es THERESA PCP Coordination Team

Opis: Financial offer

5.1.11. Dokumenti v zvezi z oddajo javnega naročila

Jeziki, v katerih so uradno na voljo dokumenti v zvezi z oddajo javnega naročila: angleščina

Rok za zahtevanje dodatnih informacij: 27/07/2026 23:59:00 (UTC+02:00) Vzhodnoevropski čas, srednjeevropski poletni čas

Naslov dokumentov v zvezi z oddajo javnega naročila: <https://theresa-pcp.eu/>

Sprotni komunikacijski kanal:

Ime: Tuttogare

Spletni naslov: <https://theresapcp.tuttogare.it/>

5.1.12. Pogoji javnega naročila

Pogoji za predložitev:

Elektronska predložitev: Obvezno

Naslov za predložitev: <https://theresapcp.tuttogare.it/>

Jeziki, v katerih se lahko oddajo ponudbe ali prijave za sodelovanje: angleščina

Elektronski katalog: Ni dovoljeno

Rok za prejem ponudb: 31/08/2026 23:59:00 (UTC+02:00) Vzhodnoevropski čas, srednjeevropski poletni čas

Obdobje, v katerem mora ponudba ostati veljavna: 60 Dnevi

Informacije o javnem odpiranju:

Lokacija: <https://theresapcp.tuttogare.it/>

Pogoji javnega naročila:

Izvajanje javnega naročila je treba zagotoviti v okviru programov zaščitenega zaposlovanja: Ne

Zahteva se sporazum o nerazkrivanju podatkov: ne

Elektronsko izdajanje računov: Dovoljeno

Uporabljen bo elektronsko naročanje: ne

Uporabljen bo elektronsko plačevanje: da

5.1.15. Tehnike

Okvirni sporazum:

Ni okvirnega sporazuma

Informacije o dinamičnem nabavnem sistemu:

Ni dinamičnega nabavnega sistema

5.1.16. Dodatne informacije, mediacija in revizija

Organizacija za revizijo: Fundación Miguel Servet (FMS)

Informacije o rokih za revizijo: Considering that PCP is exempted from the EU Public Procurement Directives and subsequently from the national transposition laws, the Spanish (and Navarra's) public procurement law will be applied on a subsidiary basis, if the tender documents do not cover a potential legal loophole. Any legal claim, petition or application for judicial review, with regard to the execution of this Phase 1 Contract, shall be lodged: • For contract modifications: before the Head of the Department of Health of Navarra (Spain), within a period of one month from the publication or notification of the contested decision. This prior appeal is mandatory before escalating to the administrative courts of Pamplona (Navarra, Spain) for a period of two month after the decision of the Head of the Department of Health of Navarra • For the execution and termination of the contract(s): before the civil courts of Pamplona (Navarra, Spain).
