Opis: Fintraffic Air Navigation Services Ltd (Fintraffic) is starting a radar procurement process. Fintraffic provides surveillance-based air traffic control service concerning complete Helsinki FIR (en-route), Helsinki Airport and most of the regional airports. The operational surveillance coverage is achieved via several surveillance sensors including Monopulse Secondary Surveillance Radar (MSSR), Primary Surveillance Radar and Wide Area Multilateration (WAM) systems. Fintraffic starts radar procurement to ensure the availability and continuity of surveillance-based ATS service and to improve surveillance coverage and sensor capabilities with modern equipment. This appendix describes the procurement of MSSR (Mode S), PSR S-band and PSR L-band systems including co-mounted PSR+MSSR. Fintraffic intends to award the contract and sign a framework agreement with one (1) system supplier. The framework agreement shall be valid for call-off orders to a minimum of four (4) years with the option to extend the agreement period by an additional four (4) years. Projects implemented under the framework agreement shall be executed as separate delivery projects, each governed by detailed specifications and ordering documents prepared by the Client.
