The Mortensrud project is a complex multi-purpose project with development in one combined area divided in three fields - fields 10, 11 and 12. Opis: The contracting authority will not weight the environment in this procurement as an award criteria weighting 30% or set special requirements connected to the environment, cf. the Procurement Act § 5b. The contracting authority has assessed that the procurement has, in its nature, an immaterial climate footprint and environmental impact, as this is mainly a service procurement of consultants, here consultancy services. A central characteristic of the procurement of consultants is that the most significant commitment factor is the effort that is provided by the consultant without other major input factors. The rules in the Public Procurement Act § 5 b second section will therefore not apply. Without it being decisive for the contracting authority's assessment, it is informed that DFØ has assessed this equivalent, cf. DFØ's guideline "Guidelines on climate and environmental considerations in public procurements point 7.2."
