1. Kupec

1.1. Kupec

Uradno ime: Rogaland brann og redning IKS

E-naslov: stian.magnussen@rogbr.no

Pravna vrsta kupca: Javno podjetje, ki ga obvladuje lokalni organ

Dejavnost javnega naročnika: Javni red in mir ter varnost

2. Postopek

2.1. Postopek

Naslov: Official vehicles with a clean and dirty zone (goods vans)

Opis: Background The contracting authority needs to renew the vehicle fleet for personnel who work with housing inspections and sweeping. The procurement will be carried out as a result of new requirements for division into a clean and dirty zone in the vehicles. The aim is to facilitate a safer and more appropriate work day, including reducing exposure to degassing, dust and other pollution from equipment and work clothes used in the service. The vehicles shall be used in daily operative operations and must support safe transport of personnel, tools, sweeping equipment and polluted equipment. Therefore there is a need for vehicles and fittings solutions that together provide good functionality, practical access, satisfactory ergonomics and reliable handling of equipment in accordance with the business's needs.

Description of the assignment The contracting authority shall enter into a procurement contract for the delivery of 11 goods vans in large box van execution, ready fitted out with a 3-piece system for a clean and dirty zone. The delivery shall include complete vehicles with adapted fittings and the necessary equipment for the contracting authority's use. The budget limit for the procurement is estimated to be between NOK 6,300,000 excluding VAT and NOK 7,800,000 excluding VAT, depending on the sale of existing vehicles. The contracting authority reserves the right to reduce or increase the scope of the procurement within the framework of the procurement regulations, i.e. due to changed needs, unit prices (reduced number of vehicles), financial framework terms or organisational conditions. Reservations related to the price, including currency reservations, shall be clearly and unambiguously stated and priced. Conditions that are not priced or that lead to uncertainty in the evaluation can lead to rejection, cf. the Public Procurement Regulations § 24-8. Vehicles with characteristics are requested that make them suitable for daily service use, including good capacity, sufficient payload with full furnishing and accessibility suitable for varied operational conditions. The furnishing system shall be functional for handling and separating clean and polluted equipment, and at the same time support safe and ergonomical use in the everyday work. The procurement also includes fixtures that provide appropriate storage and practical access to equipment and work material. Further requirements for vehicles, fitting out, performance and delivery are in the requirement

specifications. The stated volume is an estimate and the contracting authority can reduce or increase the scope within the stated procurement regulations. Delivery shall be delivered to Rogaland brann og redning (RBR) in Sandnes.

Identifikator postopka: 0a114d5c-594d-4bfe-8bef-28beff609ac6

Notranji identifikator: cmqarhlys000004jyt4cdq0ua

Vrsta postopka: Odprti postopek

Postopek je pospešen: ne

Glavne značilnosti postopka: All interested suppliers can submit tender offers through Hyrr. The competition does not have a prequalification phase. The tenders will be evaluated directly, and dialogues or negotiations will not be allowed beyond minor clarifications and corrections of the tenders. Tenderers are strongly encouraged to follow the instructions given in this tender documentation with annexes and possibly ask questions about uncertainties in the communication module in Hyrr.

Številka v merilu za oddajo: 20

Merilo:

Vrsta: Kakovost

Ime: Climate and environment

Opis: This procurement is covered by the Public Procurement Regulations §7-9, which deals with climate and environmental considerations in public procurements, which came into force by 1 January 2024. • Climate and environmental impact from the procurement: The most significant climate and environmental impact from vehicles over their lifetime is, as DFØ considers in guidelines on climate and environmental considerations, emissions from burning fuel in the vehicles' use phase. The vehicles shall be zero emission vehicles. • Climate and environmental considerations that will have an effect on the load: Electrification is the individual measures that, according to the Norwegian Environment Agency, can mostly reduce emissions. • Market dialogue: The contracting authority has carried out a market dialogue and received input from potential suppliers on relevant climate and environmental considerations to address. There is little point here on other elements than the environmental management system that can contribute to reducing the climate and environmental impact, and that at the same time can safeguard the basic principle of competition. Based on the above, the contracting authority has qualification requirements for climate and environmental considerations connected to the contract, and thus the exclusion provisions PPR§ 7-9(5) apply. Kategorija merila za oddajo javnega naročila teža: Ponder (odstotek, točen)
Številka v merilu za oddajo: 0
