2.1. Förfarande

Titel: BK2 Spinneriet with p-basement

Beskrivning: DHP Bygg BK 2 AS and Dhp Parkering AS are wholly owned subsidiaries of Drammen Helsepark AS and request, in connection with project BK2 Spinneriet with the parking basement, for a tender for a turnkey contract. The establishment of Bygg Bk2 with the accompanying parking basement will be carried out as a project where the turnkey contractor is responsible for all the necessary work. Bygg BK2 and the parking basement are organised in two different companies in Drammen Helsepark, DHP Bygg BK2 AS and Dhp Parkering AS. Both companies will be formal Builders and contract partners for the Turnkey Contractor. Drammen Helsepark AS has carried out detailed regulation of the area south of Brakerøya train station in cooperation with Helse Sør Øst / Vestre Viken. The detailed plan was approved in September 2019 and gives Helseparken the possibility to build 76,500 m2 gross over the basement of the car park. See other documents on interface and conditions connected to the construction site, Folder C1 Conditions connected to the construction site and external surroundings. The parking basement under the BK3 and parts of the bk4 field was opened in November 2024 and is used as visitors to the hospital in Drammen and visitors to Drammen Helsepark. BK3-1 and BK3-2 are the first construction stages for the superstructures in the existing basement, and these two buildings will open in June 2026. BK2 is a building that shall be constructed in accordance with the hire contract with Drammen municipality for the new Emergency Doctor Surgery and short term places for patients. The parking basement under BK2 is an extension of the already existing parking basement and it will include technical rooms, lifts/stairs up to BK2 as well as parking places for visitors to BK2. A contract has been signed with an architect and architect outdoors, for the detailed engineering design services for BK2. Nordic Office of Architecture and SLA Norway AS will be transported to the Turnkey Contractor. The builder has submitted an application for framework permission. It is expected to be received in May/June 2026 and will be sent in. All further applications must be taken care of by TE. Dark architects with the SØK function are the builder's/DHP's consultant throughout Drammen Helsepark. DHP has chosen to use NS 8407 General contract terms for turnkey contracts as the contract form.

Beskrivning: The procurement is for the construction of buildings with significant climate and environmental impact. The contracting authority has chosen to have binding requirements that the building shall achieve energy class A and be certified in accordance with BREEAM-NOR v6.1.1 level Excellent. These requirements ensure uniform, documentable and third-party verified environmental performance in both the construction phase and the lifetime of the building. The contracting authority considers that such absolute requirements provide a higher and more predictable climate and environmental effect than using climate and the environment as the award criteria with a minimum of 30% weighting, where price or other conditions can be decisive. The exclusion provisions in the Public Procurement Regulations § 7-9 fourth section will therefore be used.
