2.1. Förfarande

Titel: R0011EBE - Framework agreement ground and concrete

Beskrivning: The Agency for Buildings and Property (EBE) manages, operates, maintains and develops the municipality's properties. The property mass consists of more than 1,000 buildings of approx. 1.2 million m2 and 5,000 undeveloped properties, as well as 6 km of different quays and quay fronts with adjoining areas. Nearly 60 percent of the buildings are schools, nurseries and nursing homes. The remaining buildings are, among other things, office buildings, port buildings, fire stations, car parks, quays and sports halls. To cover the Agency's need for ongoing maintenance and operation of buildings, quays and areas, Bergen municipality, c/o the Building and Property Department, intends to enter into a framework agreement with two tenderers for the provision of ground and concrete services.

Intern identifierare: 2026/146491

Typ av förfarande: Öppet

Förfarandet är påskyndat: nej

Förfarandets viktigaste kännetecken: The framework agreement will include the delivery of a number of different types of work, for example: Excavation Maintenance and replacement of ditches and manholes (W&S works) Quay works (repairs of granite fronts, amendments, quay rails, cover etc.) Drainage Asphaltting places and minor road works Asphaltting Concrete cover and masonry (including form work and reinforcement) Stair road edges Securing walls and hull drilling and concrete sawing. Fencing Underwater work (casting) Rock protection Rivning /clearance Engineering design services The list of services included in the framework agreement is not exhaustive. Other services that naturally come under the disciplines included in this framework agreement will be provided if there is a need in the contract period. The framework agreement can have varying types of call-offs, from small to large call-offs on land and in port. The port works will mostly include sub-contract 1. The amount of call-offs can vary throughout the year, for example there can be a high number of call-offs before summer and a small number of call-offs after the New Year. The framework agreement is divided into the following sub-contracts: Sub-contract 1 - Bergenhus, Årstad, Åsane and Arna (75%) Lot 2 - Fana, Ytrebygda, Laksevåg and Fyllingsdalen (25%) Lot 1 includes approx. 75% of the estimated volume, but the estimated volume can vary between the sub-contracts due to unforeseen needs that may occur during the contract period. Tenderers will submit tenders for

both lots, but only one contract shall be awarded per tenderer, so that two different tenderers will be awarded. Tenderers who submit a tender with the lowest comparison price and are ranked number one will be awarded sub-contract 1. Tenderer ranked second will then be awarded sub-contract 2. The contracting authority has entered into a framework agreement for site gardening services and fences and gates. Work within ground and concrete in connection with call-offs on the site gardening agreement/fences and gates is not included in this framework agreement. The contracting authority also has other ongoing contracts for services that in some assignments will limit or overlap assignments under this agreement. The contracting authority will, in such cases, use the contracts in the most appropriate way. Emphasis is put on the fact that the contracting authority's extent can vary based on actual need and/or the budget can change during the framework agreement period. The Contracting Authority reserves the right to hold separate tender/tender competitions within ground and concrete, where appropriate and without justification.

5.1.9. Urvalskriterier

Källor till urvalskriterier: Meddelande

Kriterium: Registrering i ett handelsregister

Beskrivning av urvalskriterium: Tenderers are registered in a company register or a trade register in the member state in which the tenderer is established. As described in annex XI of directive 2014/24/EU; suppliers from certain member states may have to fulfil other requirements in the mentioned annex. Minimum qualification requirements Tenderers shall be a legally registered company. Documentation: Documentation: Documentation must not be enclosed for tenderers registered in the Norwegian Register of Units. The contracting authority will check the registration by using the organisation number stated in the tenderer's MerCell profile. Tenderers who are not registered in the above register must present a certificate or confirmation (equivalent company registration certificate) for registration in a trade or business register as prescribed by the law of the country where the tenderer is established. Such a certificate shall not be issued more than six months before the tender deadline.

Kriterium: Andra ekonomiska eller finansiella krav

Beskrivning av urvalskriterium: Regarding any other economic and financial requirements that have been stated in the notice or in the procurement documents, the tenderer declares that: Minimum qualification requirements Tenderers must have sufficient economic and financial capacity to be able to fulfil the contract. The credit rating must show that the tenderer is credit worthy without security. The tenderer is required to have a minimum rating C (Low risk) in the credit company Creditsafe. Documentation: The contracting authority will check a credit rating carried out by the credit company Creditsafe, so the tenderer does not need to enclose their own credit rating. Newly established tenderers can submit a bank statement as proof of credit worthiness. If the tenderer is not registered in Creditsafe's registers, the company's last two auditor approved annual accounts shall be submitted upon request. If information in the above sources is not correct or supplementary information is needed to highlight the company's economic and financial situation, this can be provided.

Kriterium: Referenser på angivna arbeten

Beskrivning av urvalskriterium: Only for public building and construction works: During the reference period the tenderer has carried out the following work of the requested type. The contracting authority can require up to five years experience and allow experience from the previous five years to be taken into consideration. Minimum qualification requirements Tenderers shall refer to good experience that is relevant for the procurement as described in the procurement documents. The experience shall be of relevant complexity and extent. The reference projects shall include information stated in the ESPD form in MerCell. + The contracting authority shall provide the "recipients" in the field, as well as a gender neutral preferred with the name, telephone number, email address and role in the reference project. +

In the field "Beskrivelse" there shall be a brief description of the project and state what makes the experience relevant for this procurement. Documentation requirement: Relevant experience shall be documented by stating 2 to 5 reference projects from the last 5 years. The reference projects will be added directly to Merzell as a response to this requirement. The contracting authority reserves the right to also contact the recipients of the reference projects. If more than five reference projects are given, only the first five will be assessed. In addition to the stated references, the contracting authority reserves the right to emphasise their own experiences with the tenderer.

Kriterium: Tekniker eller tekniska organ för kvalitetskontroll

Beskrivning av urvalskriterium: Tenderers can use the following technical personnel or technical units, particularly those who are responsible for quality control: For technical personnel or technical units that do not directly belong to the tenderer's business, but if the capacity the tenderer will use, cf. part II, section C, separate ESPD forms shall be supplemented. Minimum qualification requirements Description of the requirement /documentation: Tenderers are required to have sufficient capacity to carry out the assignment in accordance with the needs of the Contracting Authority. Sub-contract 1 requires that the tenderer has a minimum of 20 workers (minimum of whom eight are skilled workers) outside apprentices who can carry out assignments under this contract. For sub-contract 2, tenderers are required to have at least 8 workers (minimum 3 skilled workers) outside apprentices who can carry out assignments under this agreement. Documentation requirement: Tenderers shall enclose an overview of workers who are relevant for the execution of this delivery. The overview can preferably be in table form. The overview shall include the person's professional qualifications, experience and how the person is intended to be used in the relevant delivery. All resources stated shall have sufficient capacity in the contract period to be able to be used as described.

Kriterium: Certifikat från oberoende organ om kvalitetssäkringsstandarder

Beskrivning av urvalskriterium: Can tenderers submit certificates issued by independent bodies that document that the tenderer fulfils the stated quality assurance standards, including universal design requirements? Minimum qualification requirements The contracting authority requires that all tenderers have implemented a quality management system that is satisfactory to ensure the quality of execution in this contract. Documentation requirement: Description of the company's implemented quality management system. A certificate shall be submitted for the company's quality management system issued by independent bodies that confirm that the company fulfils certain quality management standards, for example ISO 9001. If the company does not have such certificate, other documentation of the company's quality management system shall be provided. In such cases as a minimum the following shall be submitted: + the system's name and detailed table of contents + general description of the contents of the system, including an overview of control plans and check-lists that are relevant for this contract + organisation chart showing the responsibilities in the quality management system + description of routines for internal control and handling of deviations (work with corrective and preventive measures) + a description of how the system will be used to ensure the quality of this contract. All received or obtained documentation will form the basis for an overall assessment of whether the qualification requirement is fulfilled.

Kriterium: Certifikat från oberoende organ om miljöledningssystem eller standarder

Beskrivning av urvalskriterium: Is the tenderer able to submit certificates issued by independent bodies as documentation that the tenderer fulfils the stated environmental management systems or standards? Minimum qualification requirements The contracting

authority requires that all tenderers have implemented procedures and systems, certified by independent third parties, that ensure that the execution of this contract has a low impact on the environment. Documentation requirement: Certificate issued by an independent body approved for certification. The certificate must confirm that the tenderer's environmental management system complies with requirements in a relevant standard. Documentation is required that the tenderer either has an Eco-lighthouse certificate, is EMAS certified, is certified in accordance with ISO 14001, or have a valid certificate from other relevant environmental management schemes or standards. If a tenderer does not have such a certificate, the tenderer must provide other documentation for environmental management measures that are equivalent to a relevant environmental management scheme or standard. Tenderers must also document that the measures are equivalent to those required in accordance with such an environmental management scheme or standard. Tenderers who are qualified on the basis of other documentation for environmental management measures than the third-party certification that is awarded the contract, will be obliged to carry out third-party certification of their environmental management system. This is further described in the contractual requirements that are included in the annex for changes to the standard contract.

5.1.10. Tilldelningskriterier

Kriterium:

Typ: Kvalitet

Namn: Quality - Work tasks

Beskrivning: Introduction: Under this criteria, the contracting authority has listed three work tasks (hereafter called assignment) with different solution problems. Tenderers ought to describe punctually and chronologically from A to oh how they think about solving these assignments. The tenderer's solution description should be built on good insight that both describes the challenges that can meet and the knowledge that is intended to be used to solve each assignment. In addition tenderers ought to describe which resources and qualities including HSE are activated, as well as provide time perspectives with explanations for the execution of each assignment. Assignment 1 (40%): It is Friday, 12:00, and a structural change has been reported in the transition between the peleikai's quay cover and adjoining terrain, i.e. 1 metre from the quay cover. The area is asphalted and used for container management with 'reachstackers'. The axel pressure is up to 65 tons. A call-in will be made to the framework supplier with a need for emergency turn-outs as the vessel is lying and unloading and traffic is stopped. There are 2 surface water pipelines close to the area. The kot during the transition is -1 meter with a fall of 20 degrees, the transition is not sheet piled. The work must be carried out as fast as possible with permanent improvements. Tenderers ought to describe how they solve this task in accordance with the introduction above. Maximum 800 words for this assignment. Words over 800 will not be evaluated. Assignment 2 (30%): A call-off has been sent to the framework supplier to build a noise screen of 40 metres in length and 2 metres high. The noise reduction screen will cross 2 municipal water pipelines. The cable route including high voltage cable is located along the entire route at 3 metres distance. The initiative is only missing an initiation permit. The project is being engineered and executed in accordance with the Planning and Building Act, water and sewage norm for Bergen municipality, the regulations on electrical supply installations and SHA rules. Tenderers ought to describe how they solve this task in accordance with the introduction above. Maximum 600 words for this assignment. Words over 600 will not be evaluated. Assignment 3 (30%): Damage to the granite front quay with therefor sentences in the front/corner. A granite block in the corner of the Skolte foundation quay has been reported to be on the way out. With the ROV inspection it shows that the stone is at depth 8 meters from the quay edge, and that the stone suctions have opened on each side all the way down to the bottom, as in an A-shape.

The quay has approx. 15 m depth from the quay cover to the bottom. Tenderers ought to describe how they solve this task in accordance with the introduction above. Maximum 600 words for this assignment. Words over 600 will not be evaluated. Documentation requirement: The tenderer's own description with a maximum of 2,000 words divided between all the assignments (see the maximum word per task in each task text). A front page is allowed, and neither is included in the evaluation nor a maximum word. Any links/hyperlinks and/or enquiries to other annexes will not be evaluated by the Contracting Authority. The tenderer's solution description ought to be concrete, as it will be binding for the tenderer during the entire contract period.
