Typ av förfarande: Förhandlat förfarande med föregående meddelande om upphandling/under konkurrens

Förfarandets viktigaste kännetecken: The South-East Regional Health Authority (henceforth referred to as the Contracting Authority) shall enter into framework agreements with private tenderers for outpatient radiological and urban diagnostic services. Both non-profit and commercial suppliers who can provide the service within the south-east health region can submit tenders. The health companies belonging to the Contracting Authority and the four non-commercial hospitals with which the Contracting Authority has operational agreements, cannot participate in the procurement, either as the main supplier or sub-supplier. A framework agreement will be signed with one or more tenderers for each shooting area for part 1. The framework agreement will be valid from 01.01.2027 (tentatively the start of the contract) until 31.12.2030. The contracting authority has a unilateral right (option) to extend the framework agreement four (4) times. The duration of each extension can be up to twelve (12) months, but can also be shorter. The maximum contract length will thus be eight (8) years (4+1+1+1+1). A framework agreement will be signed with one tenderer per sub-contract for part 2 located in the admission area Oslo for breast diagnostic services, which will apply from 1.2.2027 (tentative contract start date) and up until 31.12.2030. The contracting authority has a unilateral right (option) to extend the framework agreement four (4) times. The duration of each extension can be up to twelve (12) months, but can also be shorter. The maximum contract length will, thus, be seven years and 11 months (3 years and 11 months+1 year+1 year +1 year + 1 year). The maximum financial limit (including annual price adjustment) for the entire contract period is NOK 4.8 billion, and includes that the health companies can make call-

offs on part 1 for up to NOK 115 million, option for an extension and an option for adjustment in accordance with Annexes 5.1 and 5.2 – Template for framework agreement § 19. The maximum financial limit shall not be taken into account in the price form or evaluation.

2.1.4. Allmänna upplysningar

Kompletterande information: The nature of the procurement is the provision of outpatient radiological services, which involve diagnostic examinations and a health assessment of patients with the help of image diagnostics. The central element in this type of procurement is the medical competence and assessment that is provided by radiologists and other qualified health personnel, in combination with the use of medical-technical equipment as a support tool in diagnostics. This is, thus, a service where the central input factor is the human resources and the health expertise. On this background, it is the contracting authority's assessment that this is a service that is mainly related to patient treatment and medical assessment, and where the climate footprint and the impact on the environment are considerably limited. Any

environmental impacts are mainly related to already established infrastructures and medical equipment that are necessary to provide reliable health services. On this background, it is the Contracting Authority's assessment that this is a service that, in its nature, will only have an immaterial climate footprint and environmental impact, so that the Contracting Authority is not obliged to set climate and environment criteria or climate and environmental requirements in the requirement specifications, cf. the regulations § 7-9 (5).
