5.1.9. Urvalskriterier

Källor till urvalskriterier: Meddelande

Kriterium: Andra ekonomiska eller finansiella krav

Beskrivning av urvalskriterium: Tenderers shall have their tax and VAT payments in order.

Documentation requirements: Tax and VAT certificate, not older than 6 months from the tender deadline. The certificate can be ordered and downloaded from Altinn. If this is not possible, it can be ordered from the tax collector or the Norwegian Tax Administration. The contracting authority reserves the right to reject tenderers who have not fulfilled their tax and duty obligations. If a tenderer has been given a deferment of payment, this must be enclosed as additional information to the tax certificate. Foreign tenderers must provide certificates from equivalent authorities to the Norwegian authorities.

Kriterium: Registrering i ett handelsregister

Beskrivning av urvalskriterium: The tenderer shall be a legally established company.

Documentation requirements: Norwegian companies: The contracting authority will obtain a company registration certificate from the Brønnøysund Register Centre. Norwegian companies therefore do not need to submit a company registration certificate. Foreign companies: Proof that the company is registered in a trade or business register as prescribed by the law of the country where the company is established.

Kriterium: Andra ekonomiska eller finansiella krav

Beskrivning av urvalskriterium: Tenderers must have sufficient economic and financial capacity to be able to fulfil the contract. Documentation requirements: The tenderer's Annual Financial Statements for the last three years including notes, the Board's Annual Reports and Audit Reports, including new information of relevance to the company's fiscal numbers. The contracting authority reserves the right to carry out a credit assessment. The financial strength will be assessed in relation to turnover, operating degree, solidity and liquidity. The contracting authority will obtain revised annual accounts from the Brønnøysund Register Centre for Norwegian tenderers. The Norwegian tenderers shall therefore not deliver revised annual accounts.

Kriterium: Referenser på angivna tjänster

Beskrivning av urvalskriterium: Tenderers shall have relevant experience from comparable contracts. Comparable assignments means the delivery of CMS in accordance with NEK IEC /IEEE 80005-3 or equivalent. Documentation requirements: Short description of the three most relevant deliveries in the last three years. The overview shall include: * Name of the contracting authority * The contract's value * Date of delivery * Number of * Brief description of what was delivered, including a description of CMS and commissioning and the tenderer's role in this It is the tenderer's responsibility to document relevance through the description. The contracting authority will be able to emphasise their own experiences. If this is done, the tenderer will be made attention to this.

Kriterium: Åtgärder för att säkerställa kvaliteten

Beskrivning av urvalskriterium: Tenderers shall have a relevant quality assurance system for the content of the contract. Documentation requirements: A description of the tenderer's quality assurance methods. Alternatively: Certificate for the company's quality assurance system issued by independent bodies that confirms the tenderer fulfils certain quality assurance standards, for example ISO 9001:2015.

Kriterium: Miljöledningsåtgärder

Beskrivning av urvalskriterium: Tenderers are required to have implemented environmental management measures that ensure that the tenderer is suitable to fulfil the contract's environmental provisions (see contract point 4.6). This means that the tenderer has methods for working actively and systematically to reduce negative environmental impact from activities connected to the execution of this contract. Documentation requirements: A description of the tenderer's environmental management measures. If a tenderer has certificates from independent bodies that document the environmental management system, they can be presented as documentation. Refer to the EU Scheme for Environmental Management and Environmental Audit (EMAS), other recognised environmental management systems in regulation (EF) no. 1221/2009 article 45, or equivalent, and other environmental management standards based on relevant European or international standards from accredited bodies such as ISO 14001 or equivalent.

Kriterium: Försörjningskedjans hantering

Beskrivning av urvalskriterium: Tenderers shall be suitable for fulfilment of contract requirements for due diligence assessments for responsible businesses (see the contract form point 8). This means that the Tenderer has implemented measures and systems that are used in the Tenderer's work to safeguard basic human rights and decent working conditions, as well as to prevent environmental degradation and corruption. Documentation requirements: Completed Annex 4 Reply Form qualification requirements, due diligence assessments with a description of the tenderer's systems for working with due diligence assessments in accordance with the UN's guiding principles for business and human rights (UNGP) and OECD's guidelines for multinational companies. The documentation shall include: Formal policy/guidelines that cover an obligation to comply with the requirements of responsible business. (Point 1 in annex 4).

Beskrivning: The contracting authority considers that, for this procurement, the best climate and environmental effect will be achieved by setting climate and environmental requirements in the requirement specifications and as qualification requirements, and in this competition has chosen to use climate and environmental requirements rather than award criteria to safeguard environmental considerations, cf. the regulations § 7-9 fourth paragraph. It is unclear what tenderers can deliver on the environmental criteria in this procurement. Many of the tenderers are foreign, and the variations in reporting standards, documentation practice and regulations make it challenging to compare offers on climate and the environment in a fair way. By evaluating environmental performance as the award criteria, one risks favouring some suppliers, for example Norwegian actors, without necessarily giving a real environmental benefit. The climate and environmental impact connected to this delivery is further assessed as relatively low. The main activities are limited to rigging and operation of CMS with limited travel needs, few persons involved and the possibility for digital operation and monitoring. This reduces the total climate footprint. Setting concrete environmental requirements, rather than using the environment as the evaluation criterium, ensures that all tenderers adhere to the same obligations and standards. This gives greater predictability, equal treatment and guarantees actual environmental effect, instead of baseing the assessment on judgemental and potentially little comparable information. Environmental considerations should therefore be taken care of through clear minimum requirements, rather than as the award criteria. These minimum requirements will apply: 1. Remote monitoring and digital monitoring: The system shall enable remote monitoring and error recovery via a network connection, see Annex 1 the Contracting Authority's requirement specifications point 3.6. 2. Waste management: Waste from the work shall be sorted in accordance with the Oslo Port's sorting programme. The tenderer is responsible for delivering all waste to a certified landfill site, see Annex 1 the Contracting Authority's requirement specification point 1.4. 3. Qualification requirement for environmental certification: Tenderers shall describe their environmental management measures or be certified in accordance with recognised environmental management systems, for example ISO 14001 or equivalent, see qualification and tender documentation point 4.2.4. 4. Qualification requirements for due diligence assessments: Tenderers shall have implemented systems and routines for due diligence assessments in accordance with THE UN's guiding principles and OECD's guidelines, see the Qualification and tender documentation, point 4.2.4. 5. Member of a recycling scheme for packaging: Tenderers shall document

membership in one of the recycling companies for packaging that is approved by the Norwegian Environment Agency, see the Standard Contract Terms, point 4.5.
