Title: Digital Pathology Slide Scanner, accompanying software, servicing and all associated supplies and services at St Vincent's University Hospital (SVUH)

Description: St Vincent's University Hospital (SVUH) under St Vincent's Healthcare Group (SVHG) is one of the world's leading academic teaching hospitals providing front line, acute, chronic and emergency care across over 50 different medical, surgical and diagnostic specialties – in the country's only integrated multi-hospital campus. It currently employs approximately 5,000 employees across locations. Summary: The objective of this tender is to procure a state-of-the-art, modern Digital Pathology System at our Pathology laboratory, for research and education purposes. The system will facilitate remote review, consultation, and collaboration among pathologists by providing a robust platform for digital pathology. This will enhance the lab's services. We seek a telepathology solution that is reliable, scalable, and user-friendly (based on number of steps and intuitiveness of the system) that aligns with the laboratory's operational needs and regulatory requirements, ensuring high-quality scanning. Please refer to the Request for Tenders within the CfT Documents area for more detail.

Technical instructions: Please upload your tender in a ZIP (compressed) folder. We welcome queries and requests for clarification/additional information during the relevant deadline. If the Economic Operator is a joint undertaking (consortium, partnership, subcontracting arrangement), all parties must be clearly identified in the tender submission.
