2. Procedure

2.1. Procedure

Title: Framework agreement - Consultancy services within energy management and ENERGY CONSERVATION

Description: Kristiansand municipality invites tenderers to submit tenders for a framework agreement for consultancy services within energy management and ENERGY CONSERVATION. Note that the chosen tenderer will not be able to participate in competitions for the execution of ECOX measures for Kristiansand municipality.

Procedure identifier: 53be108a-4eb1-4b59-880d-b93a181a1146

Internal identifier: 2025020336

Type of procedure: Open

The procedure is accelerated: no

Main features of the procedure: Kristiansand municipality would like a fixed main resource as well as the necessary support resources (energy management including other disciplines) that shall assist with energy management services. The main resource will work closely with employees at Eiendom. We would like the offered resources to be enterprising, innovative, results orientated, self-propelled, experienced, professionally strong and co-operative. In addition to the points listed below, the offered resources will be given responsibility for overall thinking and result in cooperation with Property, and will have an important role in the municipality's energy work in general. Kristiansand municipality's quality system shall be monitored when carrying out the assignment. The following assignments and areas of responsibility will be particularly central in the framework agreement: Energy management iht. ISO 50001 Energy consultancy services in connection with: The municipality's energy requirements for new buildings New building projects Contact with network companies and energy suppliers Processing enquiries from other internal entities and external suppliers Central assignments in connection with. investment projects ENØK: Design of proposals for new initiatives (idea phase), mapping, cost/benefit calculations, prioritising INCREASE consultancy and decision basis for administration and politicians Assistance in connection with. Enova applications and reporting Responsibility for requirement specifications for engineering design/function requirements etc., including electro, automation, HVAC, renewable energy, ventilation, all types of heat pumps, solar cells, windmills, building engineering, energy measurement, energy marking etc. Preparation of the technical tender

documentation, including an account of building technical conditions and application processes in connection with. structural security when establishing renewable energy on the roof, walls etc. Tender evaluation Participation in negotiations and when designing contracts Reporting: Energy accounts Environmental accounts Project economy Savings, temperature correction etc. Enova-initiatives The municipality reserves the right to use other consultants in projects where it is more appropriate.
