Body governed by public law

I.5. Main activity

Other activity: erogazione di servizi residenziali e semiresidenziali prevalentemente ad anziani non autosufficienti

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Pre-commercial procurement to buy R&D services in the form of tools for modelling and dynamic assessment of integrated health and care pathways enhancing response capabilities

II.1.2. Main CPV code

73100000 Research and experimental development services

II.1.3. Type of contract

Services

II.1.4. Short description

This PIN provides early information about the expected starting date and purchase volume for a pre-commercial procurement (PCP), and about the open market consultation that is currently in preparation of this procurement. More information about the upcoming open market consultation is provided in section II.2.14).

Within the framework of the DYNAMO PCP project, the procurement aims to procure R&D services in the form of tools that support the modelling and dynamic assessment of integrated health and care pathways enhancing response capacity of health systems. The tools should:

1. Efficiently adapt service delivery processes to shocks and structural changes
2. Share and integrate cross-sectoral data to accurately forecast outcomes and impacts of alternative pathway configurations
3. Facilitate task planning and skills matching in times of crises

The precise services to be procured will be defined in the call for tenders and considering the market input received during the OMC

II.1.5. Estimated total value

Value excluding VAT: 2 786 885,00 EUR

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

32441100 Telemetry surveillance system, 32441300 Telematics system, 33190000 Miscellaneous medical devices and products, 48000000 Software package and information systems, 48180000 Medical software package, 48211000 Platform interconnectivity software package, 48814000 Medical information systems, 48814200 Patient-administration system, 48814400 Clinical information system, 71317210 Health and safety consultancy services, 72210000 Programming services of packaged software products, 72212180 Medical software development services, 72212211 Platform interconnectivity software development services, 72212931 Training software development services, 75122000 Administrative healthcare services, 79414000 Human resources management consultancy services, 79430000 Crisis management services, 85000000 Health and social work services, 85100000 Health services, 85120000 Medical practice and related services, 85140000 Miscellaneous health services, 85323000 Community health services

II.2.3. Place of performance

NUTS code: EL30 Αττική (Attiki)

NUTS code: ES511 Barcelona

NUTS code: ITH34 Treviso

NUTS code: PT170 Área Metropolitana de Lisboa

Main site or place of performance: All interested operators are invited to take part in this OMC regardless of their geographic location, their size or governance structure.

II.2.4. Description of the procurement

Procurement will take the form of pre-commercial procurement (PCP), where R&D service contracts will be awarded in parallel to different R&D providers in a phased approach. This will allow alternative, competing solutions to be compared. Each selected supplier will receive a framework contract covering three R&D phases. The three phases are: solution design, prototype development, original development and validation and testing of a limited volume of the first products or services. After each phase, intermediate evaluations are conducted to progressively select the best of the competing solutions. The contractors with the best quality and value for money solutions will be offered a specific contract for the next phase. Price will not be the only award criterion and all criteria will be stated only in the call for tenders documents.

All interested operators are invited to take part in the upcoming open market consultation (regardless of their geographic location, the size or governance structure of their organisation). The open market consultation will be organised in the form of a series of meetings. It will provide you with an overview of the procurement objectives, the PCP process and the main clauses of the contract. You will also have the opportunity to ask questions. The first series of meetings will be held online by each of the procurers mentioned under Section I.1). During those meetings, the procurers will offer presentations in their own local languages, namely Italian, Greek, Portuguese, Spanish and English. These meetings are planned to take place in June 2023: 7th June in Wales (UK), 23rd June in Lisbon, 15th in Barcelona (ES), 13th June in Athens (GR), 22th June in Treviso (IT). The meetings will be followed by an additional international online event, 6th July 2023, in English. Registration and agenda for these meetings will be announced on the Dynamo website on May 2023: <https://dynamo-pcp.eu/> . Interested participants are encouraged to subscribe to the project mailing list, embedded at the bottom of the website, to stay tuned about project updates.

The contract notice and call for tenders is expected to start in Fall 2023 and end in Spring 2024.

Testing is expected to take place in Italy (Treviso), Greece (Athens), Spain (Barcelona), Portugal (Amadora), and possibly Wales (UK). This testing may also serve as a first customer test reference for the contractors.

The selected suppliers will retain ownership of the intellectual property rights (IPRs) they generate during the PCP and will be able to use them to exploit the full market potential of the solutions developed, i.e. beyond the procurement.

This procurement is funded by the European Union's Horizon Europe Research and Innovation Programme under Grant Agreement No 101095516 — DYNAMO PCP (<https://dynamo-pcp.eu>). The EU has awarded a grant for this procurement but is not participating as a contracting authority in the procurement.

II.2.14. Additional information

Estimated total value: EUR 3.400.000,00 incl. VAT, if applicable.

You can participate in the PCP call for tender even if you did not participate in the OMC.

Offers will be accepted in English.

All information provided during the open market consultation and other background information will be published online in English on the project website <https://dynamo-pcp.eu>

II.3. Estimated date of publication of contract notice

15/11/2023

Section IV: Procedure

IV.1. Description

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: no

Section VI: Complementary information

VI.3. Additional information

The PCP procurement is exempted from the WTO Government Procurement Agreement (GPA), the EU public procurement directives and the national laws that implement them (because it concerns the procurement of R&D services where the benefits do not accrue exclusively to the contracting authority for its use in the conduct of its own affairs). This PIN is

published to announce an open market consultation on a future procurement procedure. The PIN is not a commitment to procure.

VI.5. Date of dispatch of this notice

29/03/2023
