2.1. Procedure

Title: Breasting Dolphins at Smooth Point, Killybegs Fishery Harbour Centre, Co. Donegal, Ireland

Description: The proposed works comprise the construction of 4no. breasting dolphins to aid with stern-on berthing against the existing quay wall. The dolphins will be installed perpendicular to the existing quay face to both guide vessels under the berthing operations and secure vessels in a moored condition. Walkways will be provided to connect the dolphins to the quay wall and provide access for mooring crews. The proposed works also include the provision of new quayside LV power outlets utilising the existing installed duct networks and quayside chambers. A proposed Transformer Building is required to house new transformers and electrical switchgear and is also part of these works.
